

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph Petrenko  
DOCKET NO.: 06-30354.001-R-1  
PARCEL NO.: 13-16-125-008-0000

The parties of record before the Property Tax Appeal Board are Joseph Petrenko, the appellant(s), by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 7,200  
**IMPR.:** \$ 36,592  
**TOTAL:** \$ 43,792

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 3,750 square foot parcel of land improved with an 85-year old, two-story, masonry, single-family dwelling containing 2,610 square feet of living area, two baths and a full, unfinished basement. The appellant argued unequal treatment in the assessment process as the basis of the appeal.

In support of the equity argument, the appellant, via counsel, submitted information on a total of four properties suggested as comparable and located within six and one-half blocks of the subject. The properties are described as one and one-half or two-story, stucco, frame or frame and masonry, single-family dwellings with two or two and one-half baths and, for three properties, a full basement with one finished. The properties range: in age from 48 to 141 years; in size from 1,985 to 2,904 square feet of living area; and in improvement assessments from \$9.44 to \$12.27 per square foot of living area. Based on this

evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$36,592 or \$14.02 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on a total of four properties suggested as comparable and located within a quarter mile of the subject with two located on the subject's block. The properties are described as two-story, masonry, single-family dwellings with two baths and a full basement with one finished. The properties range: in age from 81 to 85 years; in size from 2,475 to 2,610 square feet of living area; and in improvement assessment from \$15.64 to \$16.03 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

At hearing, the appellant's attorney reiterated the position that the subject is inequitably assessed and argued that appellant's suggested comparable #1 and 34 were closer in size to the subject.

The board of review's representative asserted that the board's suggested comparables #1 and #2 were the exact same as the subject in size and assessed value.

After reviewing the record and considering the testimony, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of eight properties suggested as comparable to the subject. The PTAB finds the board of review's comparables most similar to the subject in size, design, construction and age and specifically comparables #1 and #2. Due to their similarities to the subject, these comparables received the most weight in the PTAB's analysis. The properties are masonry, two-story, single-family dwellings located within the subject's neighborhood with two located on the subject's block. The properties range: in age from 81 to 85 years; in size from 2,475 to 2,610 square feet of living area; and in improvement assessment from \$15.64 to \$16.03 per square foot of living area. In comparison, the subject's improvement assessment of \$14.02 per square foot of living area is below the range of these comparables. The remaining comparables were given less weight due

to disparities in design, construction and/or size. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
