

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Daniel Stralka
DOCKET NO.: 06-30493.001-R-1
PARCEL NO.: 13-06-404-002-0000

The parties of record before the Property Tax Appeal Board are Daniel Stralka, the appellant, and the Cook County Board of Review.

The subject property consists of an 86-year-old, one-story, single-family dwelling of frame and masonry construction containing 2,577 square feet of living area and located in Jefferson Township, Cook County. Features of the residence include three full bathrooms, a full-unfinished basement, air-conditioning, a fireplace and a two-car detached garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of one-story, single-family dwellings of frame, stucco or masonry construction located within two blocks of the subject. The improvements range in size from 2,767 to 3,890 square feet of living area and range in age from 81 to 88 years. The comparables contain two or three full bathrooms and a one-car, two-car or three-car detached garage. Three comparables contain a full-finished or unfinished basement, one comparable has air-conditioning and two comparables contain fireplaces. The improvement assessments range from \$14.36 to \$16.04 per square foot of living area. Based on the evidence

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,660
IMPR.: \$ 50,252
TOTAL: \$ 59,912

Subject only to the State multiplier as applicable.

submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$59,912. The subject's improvement assessment is \$50,252 or \$19.50 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with one and one-half story, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,896 to 2,290 square feet of living area and range in age from 55 to 90 years. The comparables contain one and one-half or two full bathrooms, a two-car garage and a full-unfinished basement. Two comparables have air-conditioning. The improvement assessments range from \$19.51 to \$21.64 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties submitted a total of eight properties similar to the subject in age, location and design but with variations in living area, amenities and/or exterior construction. These eight properties have improvement assessments ranging from \$14.36 to \$21.64 per square foot of living area. The subject's per square foot improvement assessment of \$19.50 falls within the range established by these properties. The Board finds of the eight comparables offered by the parties, six vary significantly from the subject in living area and four vary in exterior construction. In addition, the eight properties are inferior overall to the subject in amenities. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's current assessment.

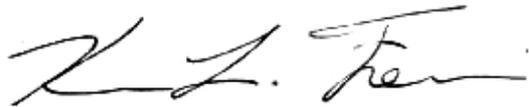

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the

subject property was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
