

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jody Michaels  
DOCKET NO.: 06-30950.001-R-1  
PARCEL NO.: 14-07-422-032-0000

The parties of record before the Property Tax Appeal Board are Jody Michaels, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 18,902  
IMPR.: \$ 50,000  
TOTAL: \$ 68,902**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story multi-family building of frame construction containing 2,705 square feet of building area. The building is 123 years old, and its features include three apartment units, a full, unfinished basement, two fireplaces, and a three-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame or masonry buildings that range in age from 92 to 117 years old. The comparables have the same neighborhood and classification codes as the subject. The buildings are multi-family with each having two apartment units. The comparables range in size from 2,024 to 2,542 square feet of building area. Each comparable has a full, unfinished basement, and three comparables have a garage. The comparables have improvement assessments ranging from \$10.64 to \$16.37 per square foot of building area. The subject's improvement assessment is \$18.48 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame buildings that range in age from 108 to 118 years old. The comparables all have the same neighborhood and classification codes as the subject. The buildings are multi-family, and they have two or three apartment units. The comparables range in size from 2,422 to 2,836 square feet of building area. Each comparable has a full, unfinished basement and a garage, and two buildings have one or two fireplaces. These properties have improvement assessments ranging from \$19.18 to \$21.95 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. Three of the appellant's comparables were much smaller than the subject and received reduced weight in the Board's analysis. The Board finds the appellant's comparable numbered two and the comparables submitted by the board of review were very similar to the subject in size, exterior construction, design, and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$10.64 to \$21.95 per square foot of building area. The subject's improvement assessment of \$18.48 per square foot of building area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
