

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Martha Klein  
DOCKET NO.: 06-30993.001-R-1  
PARCEL NO.: 14-20-218-037-0000

The parties of record before the Property Tax Appeal Board are Martha Klein, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 15,220  
**IMPR.:** \$ 47,063  
**TOTAL:** \$ 62,283

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a one and one-half story multi-family building of frame and masonry construction containing 2,369 square feet of building area. The building is 118 years old. Features of the building include three apartment units and a full, finished basement.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame or frame and masonry buildings that range in age from 98 to 117 years old. The comparables have the same neighborhood and classification codes as the subject. The buildings are multi-family, and they have from two to four apartment units. The comparables range in size from 2,086 to 2,592 square feet of building area. Three comparables have full, unfinished basements, and one has a full, finished basement with an apartment. Two comparables have garages. The comparables have improvement assessments ranging from \$19.68 to \$21.49 per square foot of building area. The subject's improvement assessment is \$24.31 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on two comparable properties consisting of one and one-half story frame buildings that are 108 and 113 years old. The comparables all have the same neighborhood and classification codes as the subject. The buildings are multi-family with each having two apartment units. The comparables contain 1,693 and 1,992 square feet of building area with central air conditioning, a garage, and a full basement, one of which is finished for an apartment. These properties have improvement assessments of \$26.93 and \$27.88 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

Both parties presented assessment data on a total of six equity comparables. The two comparables submitted by the board of review were much smaller than the subject and received reduced weight in the Board's analysis. The Board finds the appellant's four comparables, despite some differences in exterior construction and design, were the most similar to the subject in size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$19.68 to \$21.49 per square foot of building area. The subject's improvement assessment of \$24.31 per square foot of building area falls above the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
