

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Rosinkey  
DOCKET NO.: 06-31328.001-R-1  
PARCEL NO.: 17-06-415-029-0000

The parties of record before the Property Tax Appeal Board are Michael Rosinkey, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 12,000  
IMPR.: \$ 37,736  
TOTAL: \$ 49,736**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story multi-family dwelling of masonry construction containing 2,688 square feet of living area. The dwelling is 118 years old, and it has two apartment units, a slab foundation, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame or masonry multi-family dwellings that range in age from 92 to 118 years old. The appellant's comparables all have the same neighborhood and classification codes as the subject. The comparable dwellings range in size from 2,121 to 3,925 square feet of living area. Each comparable has from two to five apartment units and an unfinished basement, either full or partial. One comparable has central air conditioning, and two have a garage, either one and one-half car or two-car. The comparables have improvement assessments ranging from \$9.33 to \$13.02 per square foot of living area. The subject's improvement assessment is \$14.04 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry multi-family dwellings that are either 116 or 118 years old. The comparables all have the same neighborhood and classification codes as the subject. The dwellings range in size from 2,560 to 2,840 square feet of living area, and each has two apartment units. Three comparables have a slab foundation and a garage, either one-car or two-car. One comparable has a full, unfinished basement. These properties have improvement assessments ranging from \$16.54 to \$17.19 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The Board finds the comparables numbered one through three by the board of review were most similar to the subject in size, exterior construction, foundation, and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$16.54 to \$16.81 per square foot of living area. The subject's improvement assessment of \$14.04 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
