

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Christine Watkins
DOCKET NO.: 06-31354.001-R-1
PARCEL NO.: 16-01-210-005-0000

The parties of record before the Property Tax Appeal Board are Christine Watkins, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 8,831
IMPR.: \$ 35,136
TOTAL: \$ 43,967**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a three-story multi-family dwelling of frame construction containing 4,140 square feet of living area. The dwelling is 108 years old, and it has four apartment units, a full, finished basement with an apartment, and a one-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two or three-story masonry dwellings that range from 97 to 118 years old. The appellant's comparables all have the same classification and neighborhood codes as the subject. The comparable dwellings range in size from 4,014 to 4,267 square feet of living area, and they have either two or three apartment units. Two comparables have full, unfinished basements, and two have full, finished basements, one of which has an apartment. Each comparable has a garage, and one dwelling has central air conditioning. The comparables have improvement assessments ranging from \$5.01 to \$7.67 per square foot of living area. The subject's improvement assessment is \$8.49 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of three-story frame multi-family dwellings that range from 91 to 128 years old. The comparables all have the same neighborhood and classification codes as the subject. The dwellings range in size from 3,233 to 4,038 square feet of living area, and each has three apartment units. Three comparables have full, unfinished basements, and one has a crawl-space foundation. Two comparables have garages. These properties have improvement assessments ranging from \$8.54 to \$10.51 per square foot of living area. As part of its evidence, the board of review disclosed that the subject sold in July 2003 for \$620,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The comparable numbered four by the board of review was much smaller than the subject and received reduced weight in the Board's analysis. The Board finds that the appellant's comparables were most similar to the subject in size, and the comparables numbered one through three by the board of review were most similar to the subject in exterior construction. All of these seven comparables were very similar to the subject in most other respects. These comparables had improvement assessments that ranged of \$5.01 and \$10.51 per square foot of living area. The subject's improvement assessment of \$8.49 per square foot of living area falls within the range established by these comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
