

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Irena Klisz
DOCKET NO.: 06-31364.001-R-1
PARCEL NO.: 16-01-429-013-0000

The parties of record before the Property Tax Appeal Board are Irena Klisz, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 19,874
IMPR.: \$ 31,309
TOTAL: \$ 51,183**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story multi-family dwelling of masonry construction containing 4,174 square feet of living area. The dwelling is 97 years old, and it has three apartment units, a full, unfinished basement, and a two and one-half car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two or three-story frame or masonry multi-family dwellings that range in age from 80 to 112 years old. The appellant's comparables all have the same neighborhood and classification codes as the subject. The comparable dwellings range in size from 3,325 to 10,656 square feet of living area, and they have three or six apartment units. Each building has a full, unfinished basement, and two comparables have garages. The comparables have improvement assessments ranging from \$6.79 to \$7.19 per square foot of living area. The subject's improvement assessment is \$7.50 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry multi-family dwellings that range in age from 92 to 114 years old. The comparables all have the same neighborhood and classification codes as the subject. The dwellings range in size from 3,278 to 4,212 square feet of living area, and they have from two to four apartment units. Three comparables have full basements, one of which is finished, and one comparable has a slab foundation. Each comparable has a garage, and one building has four fireplaces. These properties have improvement assessments ranging from \$8.60 to \$9.14 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties submitted seven equity comparables. The appellant's comparables numbered one and three were much larger than the subject and received reduced weight in the Board's analysis. The appellant's comparable numbered two and the comparable numbered four by the board of review were smaller than the subject and also received reduced weight. The Board finds that the comparables numbered one through three by the board of review were most similar to the subject in size, style, and exterior construction. They were also generally similar in age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$8.60 to \$9.08 per square foot of living area. The subject's improvement assessment of \$7.50 per square foot of living area falls below the range established by these comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
