

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Krystyna Orlowski
DOCKET NO.: 06-31521.001-R-1
PARCEL NO.: 06-07-115-007-0000

The parties of record before the Property Tax Appeal Board are Krystyna Orlowski, the appellant, by attorney Lisa A. Marino of Marino & Assoc., PC of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 7,020
IMPR.: \$ 19,964
TOTAL: \$ 26,984

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of masonry construction containing 2,357 square feet of living area. The dwelling is 30 years old. Features of the home include a full, unfinished basement, a fireplace, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as one-story frame or frame and masonry dwellings that are either 30 or 49 years old. The appellant's comparables are located between one and four blocks from the subject property. The comparable dwellings range in size from 1,918 to 2,628 square feet of living area. Each comparable has central air conditioning, a two-car garage, and an unfinished basement, either full or partial. One dwelling has a fireplace. The comparables have improvement assessments ranging from \$7.22 to \$8.05 per square foot of living area. The subject's improvement assessment is \$8.47 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on four comparable properties consisting of one-story masonry dwellings that range in age from 25 to 31 years old. The comparables are located approximately one-quarter mile from the subject property. The dwellings range in size from 1,939 to 2,252 square feet of living area. One comparable has a full, finished basement, and three have unfinished basements, either full or partial. Each dwelling has central air conditioning and a two-car garage, and two have fireplaces. These properties have improvement assessments ranging from \$8.58 to \$9.87 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparables differed from the subject in exterior construction, and the appellant's comparable numbered two was much older. As a result, the appellant's comparables received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review were the most similar to the subject in exterior construction and the comparable numbered one by the board of review was the most similar in size. The comparables submitted by the board of review were also very similar to the subject in style, age, location, and foundation. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$8.58 to \$9.87 per square foot of living area. The subject's improvement assessment of \$8.47 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
