

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Merle & Carol Huff
DOCKET NO.: 07-01049.001-R-1
PARCEL NO.: 14-27-182-010

The parties of record before the Property Tax Appeal Board are Merle & Carol Huff, the appellants, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 3,580
IMPR: \$ 10,540
TOTAL: \$ 14,120**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a one-story frame dwelling containing 576 square feet of living area that was built in 1940. Features include an unfinished basement.

The appellants submitted evidence before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this claim, the appellants submitted three comparable sales. Two comparables are located in different assessment neighborhood codes than the subject as defined by the local assessor. In addition the comparables proximate location in relation to the subject was not disclosed. The comparables consist of one-story frame dwellings that were built from 1930 to 1954 and range in size from 625 to 740 square feet of living area. Two comparables have unfinished basements and one comparable has a concrete slab foundation. One comparable has central air conditioning. The comparables sold from February to April 2007 for prices ranging from \$29,980 to \$40,000 or from \$40.54 to \$58.82 per square of living area including land. Based on this evidence, the appellants requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment of \$14,120 was disclosed. The subject's assessment reflects an estimated market value of \$42,505 or \$73.79 per square foot of living area including land using Peoria County's 2007 three-year median level of assessments of 33.22%.

In support of the subject's assessment, the board of review submitted property record cards and a market analysis of three comparable sales. The comparables are located in subject's assessment neighborhood code as defined by the local assessor, but their proximate location in relation to the subject was not disclosed. The comparables consist of one-story frame dwellings that were built from 1930 to 1947 and range in size from 609 to 824 square feet of living area. The comparables have unfinished basements, one comparable has central air conditioning and all the comparables have a garage. The comparables sold from May to June 2006 for prices ranging from \$48,900 to \$71,000 or from \$80.30 to \$104.17 per square of living area including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellants submitted Multiple Listing Sheets for the comparable sales submitted by the board of review. The appellants argued the comparables have updated features and are in superior condition when compared to the subject. In addition, the appellants indicated comparable 1 sold in 2009 for \$23,000. The appellants also argued it is unfair to compare owner occupied dwellings to a rental dwelling, but failed to identify which comparables are owner occupied or rental dwellings.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds no reduction in the subject's assessment is warranted.

The appellants argued the subject property is overvalued. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill. App. 3d 179, 183, 728 N.E.2d 1256 (2nd Dist. 2000). After an analysis of the evidence, the Board finds the appellants have not overcome this burden.

The record contains six suggested comparable sales for the Board's consideration. The Board gave less weight to comparables 2 and 3 submitted by the appellants. Appellants' comparables 2 and 3 are not located in the subject's assessment neighborhood code and their proximate location in relation to the subject was not disclosed, which detracts from the weight of the evidence. In addition, comparable 2 has a concrete slab foundation, unlike the subject's unfinished basement. The Property Tax Appeal Board finds the remaining four comparables are most similar to the subject in location, age, size, design, and features. They sold for prices ranging from \$40,000 to \$71,000 or from \$58.82 to

\$104.17 per square of living area including land. The subject's assessment reflects an estimated market value of \$42,505 or \$73.79 per square foot of living area including land, which falls within the range established by the most similar sales contained in this record. After considering adjustments to the comparables for any differences when compared to the subject, the Property Tax Appeal Board finds the subject's estimated market value as reflected by its assessment is supported and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
