

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Trevelyn D. Hoover
DOCKET NO.: 07-01136.001-R-1
PARCEL NO.: 14-32-431-034

The parties of record before the Property Tax Appeal Board are Trevelyn D. Hoover, the appellant, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$1,170
IMPR: \$8,480
TOTAL: \$9,650**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of frame construction containing 782 square feet of living area including a finished space in the attic. The dwelling was built in 1920. Features include a basement and a garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of the claim the appellant submitted information on three comparable properties. One is located in the same neighborhood code as the subject, and the proximity of the other two in relation to the subject was not disclosed. The appellant's comparables consist of one-story or one and one-half story frame or brick and frame dwellings. They were built from 1895 to 1958. They contain 960 to 1,326 square feet of living area. All have basements, one has central air conditioning, and one has a garage. The comparables sold from June to August 2007 for \$14,000 to \$23,500 or \$11.11 to \$24.47 per square foot of living area including land. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment of \$9,650 was disclosed. The subject's assessment reflects an estimated market value of

\$29,049 or \$37.15 per square foot of living area including land using Peoria County's 2007 three-year median level of assessments of 33.22%.

In support of the subject's assessment the board of review presented descriptions and sale price information on three comparable properties. A map provided by the board of review indicates they are located less than two blocks from the subject. They consist of one-story frame dwellings that were built from 1920 to 1930. The dwellings have 660 to 760 square feet of living area. All have basements, one has central air conditioning, and one has a garage. The board of review's comparables sold from August to November 2006 for \$30,000 to \$39,140 or for \$39.47 to \$53.03 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal the appellant submitted listing sheets related to the board of review's comparable properties and highlighted differences between the subject and the board of review's comparables. The appellant also argued that it is unfair to compare owner-occupied homes with rental properties such as the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant argued the subject is overvalued. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill. App. 3d 179, 183, 728 N.E.2d 1256 (2nd Dist. 2000). After an analysis of the evidence, the Board finds the appellant has not met this burden.

The record contains six suggested comparable sales for the Board's consideration. The appellant's comparables #1 and #2 have living areas more than 60 percent larger than the subject and were given less weight in the Board's analysis. The other four comparables are similar to the subject in most property characteristics. They had selling prices of \$23,500 to \$39,140 or \$24.47 to \$53.03 per square foot of living area including land. The subject's estimated market value of \$29,049 or \$37.15 per square foot of living area including land is within the range of these sales prices and is lower than the per-square-foot selling prices of the three board of review comparables that are closest to it in size. After considering the evidence the Board finds the appellant has not proven by a preponderance of the evidence that the subject is overvalued and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
