

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Roger Heim
DOCKET NO.: 07-01170.001-R-1
PARCEL NO.: 18-03-181-015

The parties of record before the Property Tax Appeal Board are Roger Heim, the appellant, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$1,250
IMPR.: \$12,020
TOTAL: \$13,270**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 97 year-old, two-story, four-plex style frame dwelling that contains 2,118 square feet of living area. Features of the dwelling include a full unfinished basement.

Through his attorney, the appellant submitted evidence to the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this argument, the appellant submitted multiple listing sheets and a grid analysis of three comparable properties. The comparables consist of 2.0-story or 1.5-story frame dwellings that were built in 1900 or 1920 and range in size from 1,294 to 2,409 square feet of living area. One comparable was described as a duplex. Features of the comparables include full or partial unfinished basements. Two comparables have one-car or two-car garages. The comparables were reported to have sold between October 2006 and May 2007 for prices ranging from \$8,500 to \$12,000 or from \$3.52 to \$6.95 per square foot of living area including land. Based on this evidence, the

appellant requested the subject's assessment be reduced to \$5,400, reflecting a market value of approximately \$16,200.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$13,270 was disclosed. The subject has an estimated market value of \$39,946 or \$18.86 per square foot of living area including land as reflected by its assessment and the 2007 Peoria County three-year median level of assessments of 33.22%.

In support of the subject's assessment the board of review submitted property record cards and a grid analysis of three comparable properties. The comparables consist of two-story brick or frame dwellings that were built between 1914 and 1922 and range in size from 1,760 to 3,124 square feet of living area. All the comparables have full or partial unfinished basements, two have a fireplace, two have garages that contain 396 and 440 square feet of building area, respectively, and one has central air conditioning. These properties sold between November 2005 and June 2006 for prices ranging from \$65,000 to \$245,000 or from \$36.93 to \$78.43 per square foot of living area including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant argued the board of review's comparables are single-family homes, whereas the subject is a four-plex and it was unfair to compare owner-occupied dwellings with rental properties.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds no reduction in the subject property's assessment is warranted.

The appellant contends overvaluation as the basis of the appeal. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). After analyzing the market evidence submitted, the Board finds the appellant has failed to meet this burden.

The Board finds the parties submitted a total of six comparables in support of their respective arguments. The Board gave less weight to the appellant's comparable 2 and the board of review's comparables 1 and 2 because they differed from the subject in design, exterior construction, and/or living area. The Board finds the remaining comparables were similar to the subject in design, exterior construction, age, and some features and sold for prices ranging from \$3.52 to \$36.93 per square foot of living area including land. The subject's estimated market value as reflected by its assessment of \$18.86 per square foot of living area including land falls within this range. Therefore, the

Board finds the evidence in this record supports the subject's assessment.

In conclusion, the Board finds the appellant has failed to prove overvaluation by a preponderance of the evidence. For this reason, the Board finds the subject's assessment as determined by the board review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
