

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kent Jones
DOCKET NO.: 07-01744.001-R-1
PARCEL NO.: 14-35-302-013

The parties of record before the Property Tax Appeal Board are Kent Jones, the appellant, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,350
IMPR.: \$6,367
TOTAL: \$7,717

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 87 year-old, 1.5-story frame dwelling that contains 926 square feet of living area. Features of the home include a partial unfinished basement.

The appellant submitted evidence to the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this argument, the appellant submitted multiple listing sheets and a grid analysis of three comparable properties. The comparables consist of 1.5-story or one-story frame dwellings that were built in 1920 or 1930 and range in size from 540 to 1,048 square feet of living area. Two comparables have partial unfinished basements and one has a one-car garage. These properties sold in April or August 2007 for prices ranging from \$7,500 to \$10,000 or from \$7.15 to \$18.51 per square foot of living area including land. Based on this evidence, the appellant requested the subject's assessment be reduced to \$5,400.

The board of review submitted its Board of Review Notes on Appeal wherein the subject's total assessment of \$8,620 was disclosed. The subject has an estimated market value of \$25,948 or \$28.02 per square foot of living area including land, as reflected by its assessment and Peoria County's 2007 three-year median level of assessments of 33.22%.

In support of the subject's estimated market value as reflected by its assessment, the board of review submitted property record cards and a grid analysis of three comparable properties located in the same assessor's assigned neighborhood code as the subject. The comparables consist of 1.5-story bungalow style dwellings that were built in 1900 or 1920 and range in size from 1,155 to 1,504 square feet of living area. Features of the comparables include full or partial unfinished basements. One comparable has a 216 square foot garage. These properties sold in March or September 2005 for prices ranging from \$30,000 to \$59,900 or from \$25.97 to \$46.22 per square foot of living area including land. Based on this evidence, the board of review requested the subject's assessment be confirmed.

In rebuttal, the appellant argued the board of review's comparables have features not enjoyed by the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds a reduction in the subject property's assessment is warranted.

The appellant contends overvaluation as the basis of the appeal. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). After analyzing the market evidence submitted, the Board finds the appellant has met this burden.

The Board finds the parties submitted six comparables for its consideration. The Board gave less weight to the appellant's comparables 2 and 3 because they differed in design or living area when compared to the subject. The Board also gave less weight to the board of review's comparables 1 and 3 because they also differed significantly in living area when compared to the subject. The Board finds the appellant's comparable 1 and the board of review's comparable 2 were similar to the subject in design, age, size and some features and sold for prices of \$7.15 and \$25.97 per square foot of living area including land. The subject's estimated market value as reflected by its assessment of \$28.02 per square foot of living area falls above the two most representative properties in this record. After considering adjustments and differences in both parties' comparables when compared to the subject, the Board finds the evidence in the record supports a reduction in the subject's assessment.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
