

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Steven & Evelyn Tobin  
DOCKET NO.: 07-01756.001-R-1  
PARCEL NO.: 18-04-204-018

The parties of record before the Property Tax Appeal Board are Steven & Evelyn Tobin, the appellants, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:     \$ 2,080**  
**IMPR:     \$ 6,020**  
**TOTAL:    \$ 8,100**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of frame construction containing 1,452 square feet of living area. The dwelling was built in 1920. Features of the home include a basement.

The appellants submitted evidence before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of the claim the appellants submitted information on three comparable properties. Two are located in areas with different neighborhood codes than the subject, and the appellants did not indicate their proximity to the subject. The appellants' comparables consist of one and one-half story frame dwellings. They were built in 1910 or 1925. They contain 1,293 to 2,046 square feet of living area. All have basements, two have garages, and one has central air conditioning. The comparables sold from December 2006 to August 2007 for \$14,500 or \$17,000 or \$8.30 to \$11.21 per square foot of living area including land. Based on this evidence, the appellants requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment of \$8,100 was disclosed. The subject's assessment reflects an estimated market value of

\$24,383 or \$16.79 per square foot of living area including land using Peoria County's 2007 three-year median level of assessments of 33.22%.

In support of the subject's assessment the board of review presented descriptions and sale price information on three comparable properties. They are located in the same neighborhood code area as the subject. They consist of one and one-half story or two-story frame dwellings that were built from 1900 to 1920. The dwellings have 952 to 1,568 square feet of living area. All have basements. The board of review's comparables sold from January 2005 to March 2007 for \$25,000 to \$31,300 or for \$18.17 to \$32.56 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal the appellants submitted listing sheets related to the board of review's comparable properties and highlighted differences between the subject and the board of review's comparables. The appellants also argued that it is unfair to compare owner-occupied homes with rental properties such as the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants argued the subject is overvalued. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill. App. 3d 179, 183, 728 N.E.2d 1256 (2<sup>nd</sup> Dist. 2000). After an analysis of the evidence, the Board finds the appellants have not met this burden.

The record contains six suggested comparable sales for the Board's consideration. The appellants' comparables are of a different design than the subject and their location with respect to the subject was not identified. The board of review's comparable #2 has a living area much smaller than the subject. The remaining two comparables are located in an area with the same neighborhood code as the subject, are two-story dwellings and are generally similar to the subject in other property characteristics. They had selling prices of \$25,000 and \$31,300 or \$18.17 and \$19.96 per square foot of living area including land. The subject's estimated market value of \$24,383 or \$16.79 per square foot of living area including land is lower than the most similar comparables. After considering the evidence the Board finds the appellants have not proven by a preponderance of the evidence that the subject is overvalued and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
