

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Magna Trust Co.
DOCKET NO.: 07-01774.001-R-1
PARCEL NO.: 18-08-103-033

The parties of record before the Property Tax Appeal Board are Magna Trust Co., the appellant, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,310
IMPR.: \$18,270
TOTAL: \$21,580

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 77 year-old, two-story, "old style" dwelling that contains 2,077 square feet of living area. Features of the home include a fireplace and a full unfinished basement.

The appellant submitted evidence to the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this argument, the appellant submitted multiple listing sheets and a grid analysis of three comparable properties. The comparables consist of two, 1.5-story and one, one-story bungalow or "old style" dwellings that were built between 1890 and 1930 and range in size from 1,271 to 1,533 square feet of living area. Two comparables have full or partial basements and one-car or two-car garages and one has central air conditioning. These properties sold between April 2006 and June 2007 for prices ranging from \$35,000 to \$43,000 or from \$22.83 to \$32.08 per square foot of living area including land. Based on this evidence, the appellant requested the subject's assessment be

reduced to \$18,000, reflecting a market value of approximately \$54,000.

The board of review submitted its Board of Review Notes on Appeal wherein the subject's total assessment of \$21,580 was disclosed. The subject has an estimated market value of \$64,961 or \$31.28 per square foot of living area including land, as reflected by its assessment and Peoria County's 2007 three-year median level of assessments of 33.22%.

In support of the subject's estimated market value as reflected by its assessment, the board of review submitted property record cards and a grid analysis of three comparable properties located in the same assessor's assigned neighborhood code as the subject. The comparables consist of two-story, "old style" dwellings that were built between 1912 and 1920 and range in size from 1,564 to 1,976 square feet of living area. Features of the comparables include full or partial basements, one of which contains 280 square feet of finished area and central air conditioning. Two comparables have a fireplace and one has a 660 square foot garage. These properties sold between June 2005 and October 2006 for prices ranging from \$82,900 to \$124,100 or from \$48.45 to \$74.72 per square foot of living area including land. Based on this evidence, the board of review requested the subject's assessment be confirmed.

In rebuttal, the appellant argued the board of review's comparables have features not enjoyed by the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds no reduction in the subject property's assessment is warranted.

The appellant contends overvaluation as the basis of the appeal. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). After analyzing the market evidence submitted, the Board finds the appellant has failed to meet this burden.

The Board finds the parties submitted six comparables for its consideration. The Board gave less weight to the appellant's comparables because they differed from the subject in design, living area, foundation and/or age. The Board also gave less weight to the board of review's comparable 3 because it was significantly smaller in living area when compared to the subject. The Board finds the board of review's comparables 1 and 2 were similar to the subject in design, age, size, foundation and location and sold for prices of \$48.45 and \$62.80 per square foot of living area including land. The subject's estimated market value as reflected by its assessment of \$31.28 per square foot of living area including land falls well below these two

most representative comparables. After considering adjustments and differences in both parties' comparables when compared to the subject, the Board finds the evidence in the record supports the subject's assessment and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
