

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kent Jones
DOCKET NO.: 07-01777.001-R-1
PARCEL NO.: 14-33-476-082

The parties of record before the Property Tax Appeal Board are Kent Jones, the appellant, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,450
IMPR.: \$13,800
TOTAL: \$16,250

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 91 year-old, one-story bungalow style frame dwelling that contains 1,018 square feet of living area. Features of the home include a 240 square foot garage and a full unfinished basement.

Through his attorney, the appellant submitted evidence to the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this argument, the appellant submitted multiple listing sheets and a grid analysis of three comparable properties. The comparables consist of 1.5-story style frame dwellings that were built in 1910 or 1925 and range in size from 1,293 to 2,046 square feet of living area. Features of the comparables include full or partial unfinished basements. Two comparables have two-car garages and one has central air conditioning. The comparables were reported to have sold between December 2006 and August 2007 for prices of \$14,500 and \$17,000 or from \$8.30 to \$11.21 per square foot of living area including land. Based on this evidence the appellant requested the subject's assessment be reduced to \$8,400, reflecting a market

value of approximately \$25,200 or \$24.75 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$16,250 was disclosed. The subject has an estimated market value of \$48,916 or \$48.05 per square foot of living area including land as reflected by its assessment and the 2007 Peoria County three-year median level of assessments of 33.22%.

In support of the subject's assessment the board of review submitted property record cards and a grid analysis of comparable properties located in the same assessor's assigned neighborhood code as the subject. The comparables consist of one-story, bungalow style frame dwellings that were built in 1924 and contain 988 or 1,052 square feet of living area. Features of the comparables include full basements, one of which contains 741 square feet of finished area. Two comparables have garages that contain 240 and 336 square feet of building area, one has a fireplace and one has central air conditioning. The comparables sold between May and October 2006 for prices ranging from \$50,000 to \$81,500 or from \$51.61 to \$77.47 per square foot of living area including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds no reduction in the subject property's assessment is warranted.

The appellant contends overvaluation as the basis of the appeal. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). After analyzing the market evidence submitted, the Board finds the appellant has failed to meet this burden.

The Board finds the parties submitted a total of six comparables in support of their respective arguments. The Board gave less weight to the appellant's comparables because they differed in design when compared to the subject. The Board finds the board of review's comparables were similar to the subject in terms of design, exterior construction, age, size, location and most features and sold for prices ranging from \$51.61 to \$77.47 per square foot of living area including land. The subject's estimated market value as reflected by its assessment of \$48.05 per square foot of living area including land falls below this range. Therefore, the Board finds the evidence in this record supports the subject's assessment.

In conclusion, the Board finds the appellant has failed to prove overvaluation by a preponderance of the evidence. For this

Docket No: 07-01777.001-R-1

reason, the Board finds the subject's assessment as determined by the board or review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
