

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Jacobs  
DOCKET NO.: 07-01901.001-R-1  
PARCEL NO.: 14-27-351-004

The parties of record before the Property Tax Appeal Board are James Jacobs, the appellant, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$5,070  
**IMPR.:** \$19,900  
**TOTAL:** \$24,970

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 67 year-old, one-story, cottage style dwelling that contains 976 square feet of living area. Features of the home include a 320 square foot garage.

The appellant submitted evidence to the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this argument, the appellant submitted multiple listing sheets and a grid analysis of three comparable properties. The comparables consist of two, one-story style frame dwellings and one, 1.5-story frame dwelling that were built between 1920 and 1953 and range in size from 672 to 1,004 square feet of living area. Two comparables have central air conditioning, one has a one-car garage and one has a full unfinished basement. These properties sold between November 2006 and March 2007 for prices ranging from \$30,000 to \$38,000 or from \$37.79 to \$44.64 per square foot of living area including land. Based on this evidence, the appellant requested the subject's assessment be

reduced to \$13,840, reflecting a market value of approximately \$41,520.

The board of review submitted its Board of Review Notes on Appeal wherein the subject's total assessment of \$24,970 was disclosed. The subject has an estimated market value of \$75,166 or \$77.01 per square foot of living area including land, as reflected by its assessment and Peoria County's 2007 three-year median level of assessments of 33.22%.

In support of the subject's estimated market value as reflected by its assessment, the board of review submitted property record cards and a grid analysis of three comparable properties located in the same assessor's assigned neighborhood code as the subject. The comparables consist of one-story cottage or cape style frame dwellings that were built in 1940 or 1946 and range in size from 928 to 964 square feet of living area. Features of the comparables include central air conditioning, full basements, one of which contains 382 square feet of finished area and garages that contain from 240 to 336 square feet of building area. These properties sold in June and August 2006 for prices ranging from \$79,600 to \$93,000 or from \$81.47 to \$100.22 per square foot of living area including land. Based on this evidence, the board of review requested the subject's assessment be confirmed.

In rebuttal, the appellant argued the board of review's comparables have features not enjoyed by the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds no reduction in the subject property's assessment is warranted.

The appellant contends overvaluation as the basis of the appeal. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3<sup>rd</sup> Dist. 2002). After analyzing the market evidence submitted, the Board finds the appellant has failed to meet this burden.

The Board finds the parties submitted six comparables for its consideration. The Board gave less weight to the appellant's comparables because they differed in age, size, or design when compared to the subject. The Board finds the board of review's comparables were similar to the subject in design, exterior construction, age, size and location and sold for prices ranging from \$81.47 to \$100.22 per square foot of living area including land. The subject's estimated market value as reflected by its assessment of \$77.01 per square foot of living area falls below this range. While the board of review's comparables have full unfinished basements and central air conditioning, features not enjoyed by the subject, the Board finds the sales prices of these properties appear to reflect their superior features.

After considering adjustments and differences in both parties' comparables when compared to the subject, the Board finds the evidence in the record supports the subject's assessment and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
