

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Union Planters Bank  
DOCKET NO.: 07-01931.001-R-1  
PARCEL NO.: 14-17-304-002

The parties of record before the Property Tax Appeal Board are Union Planters Bank, the appellant, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$5,420  
**IMPR.:** \$24,450  
**TOTAL:** \$29,870

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 47 year-old, one-story, raised ranch style frame dwelling that contains 1,008 square feet of living area. Features of the home include central air conditioning and a full unfinished basement.

The appellant submitted evidence to the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this argument, the appellant submitted the subject's property record card along with multiple listing sheets and a grid analysis of three comparable properties, two of which are located in the same assessor's assigned neighborhood code as the subject. The comparables consist of ranch style frame dwellings that were built in 1956 or 1960 and range in size from 1,169 to 1,852 square feet of living area. Features of the comparables include central air conditioning, full or partial unfinished basements and one-car garages. These properties sold between August 2006 and April 2007 for prices ranging from \$72,500 to \$75,000 or from \$40.50 to \$62.87 per square foot of living area including land.

Based on this evidence, the appellant requested the subject's assessment be reduced to \$18,340, reflecting a market value of approximately \$55,020.

The board of review submitted its Board of Review Notes on Appeal wherein the subject's total assessment of \$29,870 was disclosed. The subject has an estimated market value of \$89,916 or \$89.20 per square foot of living area including land, as reflected by its assessment and Peoria County's 2007 three-year median level of assessments of 33.22%.

In support of the subject's estimated market value as reflected by its assessment, the board of review submitted property record cards and a grid analysis of three comparable properties located in the same assessor's assigned neighborhood code as the subject. The comparables consist of raised ranch style dwellings that were built between 1960 and 1962 and range in size from 1,008 to 1,120 square feet of living area. Features of the comparables include central air conditioning and full basements with recreation areas of 480 to 700 square feet. Two comparables have garages of 231 and 288 square feet of building area. These properties sold between April 2005 and August 2006 for prices ranging from \$110,500 to \$133,000 or from \$98.66 to \$127.76 per square foot of living area including land. Based on this evidence, the board of review requested the subject's assessment be confirmed.

In rebuttal, the appellant argued the board of review's comparables have features not enjoyed by the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds no reduction in the subject property's assessment is warranted.

The appellant contends overvaluation as the basis of the appeal. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3<sup>rd</sup> Dist. 2002). After analyzing the market evidence submitted, the Board finds the appellant has failed to meet this burden.

The Board finds the parties submitted six comparables for its consideration. The Board gave less weight to the appellant's comparable 3 because it was significantly larger in living area when compared to the subject. The Board finds the remaining comparables submitted by the parties were similar to the subject in design, age, size and some features when compared to the subject. The board of review's comparable 3 was identical to the subject in age and size. These properties sold for prices ranging from \$60.77 to \$127.76 per square foot of living area including land. The subject's estimated market value as reflected by its assessment of \$89.20 per square foot of living area including land falls within this range. After considering

adjustments and differences in both parties' comparables when compared to the subject, the Board finds the evidence in the record supports the subject's assessment and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
