

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jerry Meier
DOCKET NO.: 07-01932.001-R-1
PARCEL NO.: 14-32-426-019

The parties of record before the Property Tax Appeal Board are Jerry Meier, the appellant, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$2,150
IMPR.: \$15,860
TOTAL: \$18,010**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 77 year-old, two-story, "old style" concrete block dwelling that contains 1,672 square feet of living area. Features of the home include a full unfinished basement and a 528 square foot garage.

The appellant submitted evidence to the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this argument, the appellant submitted the subject's property record card, as well as multiple listing sheets and a grid analysis of three comparable properties, two of which are located in the same assessor's assigned neighborhood code as the subject. The comparables consist of two, 1.5-story and one, one-story bungalow style frame dwellings that were built between 1919 and 1926 and range in size from 812 to 1,032 square feet of living area. All the comparables have full or partial basements, one of which has 250 square feet of finished area, one has a one-car garage and one has a carport. These properties sold between November 2006 and May 2007 for prices ranging from \$19,000 to

\$28,000 or from \$21.99 to \$34.48 per square foot of living area including land. Based on this evidence, the appellant requested the subject's assessment be reduced to \$10,400, reflecting a market value of approximately \$31,200.

The board of review submitted its Board of Review Notes on Appeal wherein the subject's total assessment of \$18,010 was disclosed. The subject has an estimated market value of \$54,214 or \$32.42 per square foot of living area including land, as reflected by its assessment and Peoria County's 2007 three-year median level of assessments of 33.22%.

In support of the subject's estimated market value as reflected by its assessment, the board of review submitted property record cards and a grid analysis of three comparable properties. The comparables consist of two-story, "old style" or colonial frame or brick dwellings that were built in 1928 or 1930 and range in size from 1,568 to 1,712 square feet of living area. Features of the comparables include a fireplace and full basements, one of which contains 825 square feet of finished area. Two comparables have 400 square foot garages and one has central air conditioning. These properties sold between August and October 2006 for prices ranging from \$54,900 to \$69,000 or from \$32.07 to \$41.27 per square foot of living area including land. Based on this evidence, the board of review requested the subject's assessment be confirmed.

In rebuttal, the appellant argued two of the board of review's comparables were located outside the subject's neighborhood and one comparable has features not enjoyed by the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds no reduction in the subject property's assessment is warranted.

The appellant contends overvaluation as the basis of the appeal. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). After analyzing the market evidence submitted, the Board finds the appellant has failed to meet this burden.

The Board finds the parties submitted six comparables for its consideration. The Board gave less weight to the appellant's comparables because they were significantly smaller in living area when compared to the subject. The Board finds the board of review's comparables were similar to the subject in design, age, size and most features and sold for prices ranging from \$32.07 to \$41.27 per square foot of living area including land. The subject's estimated market value as reflected by its assessment of \$32.42 per square foot of living area including land near the low end of this range. After considering adjustments and

differences in both parties' comparables when compared to the subject, the Board finds the evidence in the record supports the subject's assessment and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
