

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Roger Heim
DOCKET NO.: 07-01940.001-R-1
PARCEL NO.: 18-03-401-021

The parties of record before the Property Tax Appeal Board are Roger Heim, the appellant, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$770
IMPR.: \$8,170
TOTAL: \$8,940**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 83 year-old, one-story, bungalow style frame dwelling that contains 1,094 square feet of living area. Features of the home include a full unfinished basement and a 280 square foot garage.

The appellant submitted evidence to the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this argument, the appellant submitted the subject's property record card, as well as multiple listing sheets and a grid analysis of three comparable properties, one of which is located in the same assessor's assigned neighborhood code as the subject. The comparables consist of one-story or 1.5-story bungalow or cottage style frame dwellings that were built in 1920 or 1930 and range in size from 540 to 1,048 square feet of living area. Two comparables have partial unfinished basements and one has a one-car garage. These properties sold in April or August 2007 for prices ranging from \$7,500 to \$10,000 or from \$7.15 to \$18.51 per square foot of living area including land. Based on this

evidence, the appellant requested the subject's assessment be reduced to \$3,900, reflecting a market value of approximately \$11,700.

The board of review submitted its Board of Review Notes on Appeal wherein the subject's total assessment of \$9,740 was disclosed. The subject has an estimated market value of \$29,320 or \$26.80 per square foot of living area including land, as reflected by its assessment and Peoria County's 2007 three-year median level of assessments of 33.22%.

In support of the subject's estimated market value as reflected by its assessment, the board of review submitted property record cards and a grid analysis of three comparable properties, two of which are located in the same assessor's assigned neighborhood code as the subject. The comparables consist of one-story, bungalow or cottage style frame dwellings that were built between 1928 and 1923 and range in size from 840 to 1,185 square feet of living area. Two comparables have partial unfinished basements, two have a fireplace, one has central air conditioning and one has a 360 square foot garage. These properties sold between January and August 2007 for prices ranging from \$30,000 to \$35,000 or from \$29.01 to \$41.55 per square foot of living area including land. Based on this evidence, the board of review requested the subject's assessment be confirmed.

In rebuttal, the appellant argued the board of review's comparables have features not enjoyed by the subject and that one was not sold through the multiple listing service.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds no reduction in the subject property's assessment is warranted.

The appellant contends overvaluation as the basis of the appeal. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). After analyzing the market evidence submitted, the Board finds the appellant has failed to meet this burden.

The Board finds the parties submitted six comparables for its consideration. The Board gave less weight to the appellant's comparable 3 and the board of review's comparable 2 because these properties were smaller in living area when compared to the subject. The Board also gave less weight to the appellant's comparable 1 because its 1.5-story design differed from the subject. The Board finds the remaining comparables were similar to the subject in design, age, size and some features and sold for prices ranging from \$7.15 to \$29.54 per square foot of living area including land. The subject's estimated market value as reflected by its assessment of \$26.80 per square foot of living

area including land falls within this range. After considering adjustments and differences in both parties' comparables when compared to the subject, the Board finds the evidence in the record supports the subject's assessment and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
