

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Trev Hoover
DOCKET NO.: 07-01943.001-R-1
PARCEL NO.: 14-30-452-016

The parties of record before the Property Tax Appeal Board are Trev Hoover, the appellant, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,950
IMPR.: \$18,080
TOTAL: \$21,030

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 57 year-old, one-story, cottage style frame dwelling that contains 1,152 square feet of living area.

The appellant submitted evidence to the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this argument, the appellant submitted the subject's property record card, as well as multiple listing sheets and a grid analysis of three comparable properties located in the same assessor's assigned neighborhood code as the subject. The comparables consist of ranch style or 1.5-story frame dwellings that were built between 1940 and 1948 and range in size from 952 to 1,168 square feet of living area. All the comparables have one-car or two-car garages, two comparables have central air conditioning and one has an unfinished basement. These properties sold in April or June 2007 for prices ranging from \$23,000 to \$54,900 or from \$19.69 to \$58.53 per square foot of living area including land. Based on this evidence, the

appellant requested the subject's assessment be reduced to \$12,600, reflecting a market value of approximately \$37,800.

The board of review submitted its Board of Review Notes on Appeal wherein the subject's total assessment of \$21,030 was disclosed. The subject has an estimated market value of \$63,305 or \$54.95 per square foot of living area including land, as reflected by its assessment and Peoria County's 2007 three-year median level of assessments of 33.22%.

In support of the subject's estimated market value as reflected by its assessment, the board of review submitted property record cards and a grid analysis of three comparable properties located in the same assessor's assigned neighborhood code as the subject. The comparables consist of one-story, cottage style frame dwellings that were built in 1945 or 1950 and range in size from 813 to 1,013 square feet of living area. All the comparables have garages that contain from 264 to 320 square feet of building area and two comparables have central air conditioning. These properties sold between February and November 2006 for prices ranging from \$51,000 to \$61,900 or from \$51.41 to \$76.14 per square foot of living area including land. Based on this evidence, the board of review requested the subject's assessment be confirmed.

In rebuttal, the appellant argued the board of review's comparables have features not enjoyed by the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds no reduction in the subject property's assessment is warranted.

The appellant contends overvaluation as the basis of the appeal. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). After analyzing the market evidence submitted, the Board finds the appellant has failed to meet this burden.

The Board finds the parties submitted six comparables for its consideration. The Board gave less weight to the appellant's comparable 2 because its 1.5-story design and its basement foundation differed from the subject. The Board also gave less weight to the board of review's comparable 1 because it was significantly smaller in living area when compared to the subject. The Board finds the remaining comparables were similar to the subject in design, exterior construction, size and some features and sold for prices ranging from \$19.69 to \$76.14 per square foot of living area including land. The subject's estimated market value as reflected by its assessment of \$54.95 per square foot of living area including land falls within this range. After considering adjustments and differences in both

parties' comparables when compared to the subject, the Board finds the evidence in the record supports the subject's assessment and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
