

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ronald Hillman
DOCKET NO.: 07-01951.001-R-1
PARCEL NO.: 18-18-252-005

The parties of record before the Property Tax Appeal Board are Ronald Hillman, the appellant, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Peoria County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$810
IMPR.: \$11,540
TOTAL: \$12,350

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 77 year-old, two-story, old style concrete block dwelling that contains 1,584 square feet of living area. Features of the home include a full unfinished basement and a 380 square foot garage.

The appellant submitted evidence to the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this argument, the appellant submitted the subject's property record card, as well as multiple listing sheets and a grid analysis of three comparable properties. The comparables consist of 1.5-story or two-story bungalow or old style frame dwellings that were built between 1885 and 1930 and range in size from 1,314 to 1,795 square feet of living area. All the comparables have full or partial unfinished basements and one-car or two-car garages. These properties sold between December 2006 and March 2007 for prices ranging from \$6,200 to \$12,000 or from \$4.12 to \$6.84 per square foot of living area including land. Based on this evidence, the appellant requested the subject's assessment

be reduced to \$6,000, reflecting a market value of approximately \$18,000.

The board of review submitted its Board of Review Notes on Appeal wherein the subject's total assessment of \$12,350 was disclosed. The subject has an estimated market value of \$37,176 or \$23.47 per square foot of living area including land, as reflected by its assessment and Peoria County's 2007 three-year median level of assessments of 33.22%.

In support of the subject's estimated market value as reflected by its assessment, the board of review submitted property record cards and a grid analysis of three comparable properties located in the same assessor's assigned neighborhood code as the subject. The comparables consist of one-story, 1.5-story or two-story style frame dwellings that were built between 1900 and 1930 and range in size from 1,243 to 1,344 square feet of living area. Features of the comparables include full basements, one of which has 300 square feet of finished area. Two comparables have central air conditioning, and two have garages of 352 and 360 square feet of building area, respectively. These properties sold between September 2005 and January 2007 for prices ranging from \$36,500 to \$47,000 or from \$27.99 to \$34.97 per square foot of living area including land. Based on this evidence, the board of review requested the subject's assessment be confirmed.

In rebuttal, the appellant argued the board of review's comparables have features not enjoyed by the subject and that comparables 2 and 3 were not sold through the multiple listing service.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds no reduction in the subject property's assessment is warranted.

The appellant contends overvaluation as the basis of the appeal. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). After analyzing the market evidence submitted, the Board finds the appellant has failed to meet this burden.

The Board finds the parties submitted six comparables for its consideration. The Board gave less weight to the appellant's comparables and the board of review's comparables 2 and 3 because they differed in design, age and/or living area when compared to the subject. The Board finds the board of review's comparable 1 was similar to the subject in design and some features and sold for \$34.97 per square foot of living area including land. This comparable supports the subject's estimated market value as reflected by its assessment of \$23.47 per square foot of living area including land. After considering adjustments and

differences in both parties' comparables when compared to the subject, the Board finds the evidence in the record supports the subject's assessment and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
