

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Emilio Adan
DOCKET NO.: 07-20062.001-R-1
PARCEL NO.: 16-19-218-038-0000

The parties of record before the Property Tax Appeal Board are Emilio Adan, the appellant, by attorney Rusty Payton of the Law Offices of Rusty Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$3,276
IMPR.: \$20,807
TOTAL: \$24,083**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one and one-half-story dwelling of frame construction containing 1997 square feet of living area. The dwelling is 97 years old. Features of the home include a full, unfinished basement, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story, one and one-half-story or two-story frame dwellings that range in age from 97 to 107 years old. The comparable dwellings range in size from 1732 to 1895 square feet of living area. Two have full, unfinished basements. The appellant did not indicate whether they have garages. The comparables have improvement assessments ranging from \$5.34 to \$8.22 per square foot of living area. The subject's improvement assessment is \$10.42 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on four comparable properties consisting of one and one-half-story frame dwellings that range in age from 77 to 105 years old. The dwellings range in size from 1700 to 2035 square feet of living area. Two have full basements finished as apartments, one has a full, finished basement, and one has a partial, unfinished basement. Two have central air conditioning, and three have one-car or two-car garages. These properties have improvement assessments ranging from \$9.55 to \$12.64 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #1 and #4 should be given reduced weight in the Board's analysis because they are of a different style than the subject. The appellant's comparable #3 also was given less weight because it lacked both a basement and a fireplace and was clearly inferior to the subject. The Board also finds the board of review's comparable's #2 and #3 should be given reduced weight because they had apartments in their basements. The remaining three comparables had some features that were superior to the subject and some that were inferior, but they were overall the most similar to the subject. These comparables received the most weight in the Board's analysis. They had improvement assessments that ranged from \$7.16 to \$10.94 per square foot of living area. The subject's improvement assessment of \$10.42 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
