

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bill Jackolin
DOCKET NO.: 07-20066.001-R-1
PARCEL NO.: 16-32-310-028-0000

The parties of record before the Property Tax Appeal Board are Bill Jackolin, the appellant, by attorney Rusty Payton of the Law Offices of Rusty Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,549
IMPR.: \$ 13,715
TOTAL: \$ 18,264

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of frame and masonry construction containing 1074 square feet of living area. The dwelling is 55 years old. Features of the home include a partial, unfinished basement, central air conditioning, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as one-story or one and one-half-story frame or frame and masonry dwellings that range in age from 48 to 80 years old. The comparable dwellings range in size from 1110 to 1340 square feet of living area. One has a full, finished basement, and one has a partial basement. One has central air conditioning, and all lack fireplaces. The comparables have improvement assessments ranging from \$9.03 to \$10.66 per square foot of living area. The subject's improvement assessment is \$12.77 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on four comparable properties consisting of one-story frame and masonry dwellings that range in age from 51 to 55 years old. The dwellings range in size from 1016 to 1268 square feet of living area. Features include one and one-half-car or two-car garages. Three have full or partial, unfinished basements, and two have central air conditioning. All lack fireplaces. These properties have improvement assessments ranging from \$13.53 to \$15.97 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparables #1 and #3 submitted by the appellant should be given reduced weight in the Board's analysis because they differed from the subject in exterior construction and style, respectively. The appellant's comparable #2 was given less weight because it lacked a basement, central air conditioning and a fireplace. The board of review's comparables were similar to the subject in most property characteristics, and where they differed the board of review's comparables generally had features inferior to the subject. These comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$13.53 to \$15.97 per square foot of living area. The subject's improvement assessment of \$12.77 per square foot of living area is lower than the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
