

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Luciano Curiel
DOCKET NO.: 07-20106.001-R-1
PARCEL NO.: 15-36-302-021-0000

The parties of record before the Property Tax Appeal Board are Luciano Curiel, the appellant, by attorney Rusty Payton of the Law Offices of Rusty Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,425
IMPR.: \$ 21,848
TOTAL: \$ 28,273

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of stucco construction containing 1036 square feet of living area. The dwelling is 86 years old. Features of the home include a full, finished basement, central air conditioning and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as one-story frame, masonry or frame and masonry dwellings that range in age from 48 to 82 years old. The comparable dwellings range in size from 1162 to 1252 square feet of living area. They have full basements, one of which is finished. Two have central air conditioning, and one has a fireplace. The appellant did not indicate the size of any garages the comparables might have. The comparables have improvement assessments ranging from \$13.62 to \$18.43 per square foot of living area. The subject's improvement assessment is \$21.09 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story stucco dwellings that range in age from 79 to 88 years old. The dwellings range in size from 1026 to 1264 square feet of living area. Features include full basements, two of which are finished. Three have fireplaces, two have central air conditioning, and two have one-car or two-car garages. These properties have improvement assessments ranging from \$21.20 to \$23.82 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by the board of review were most similar to the subject in exterior construction. The board of review's comparables also were similar to the subject in most other property characteristics. These comparables had improvement assessments that ranged from \$21.20 to \$23.82 per square foot of living area. The subject's improvement assessment of \$21.09 per square foot of living area is lower than the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
