

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Szymon Sanak  
DOCKET NO.: 07-20129.001-R-1  
PARCEL NO.: 15-25-308-076-0000

The parties of record before the Property Tax Appeal Board are Szymon Sanak, the appellant, by attorney Rusty Payton of the Law Offices of Rusty Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$7,144**  
**IMPR.: \$30,288**  
**TOTAL: \$37,432**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of masonry construction containing 1764 square feet of living area. The dwelling is 53 years old. Features of the home include a full, unfinished basement, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story masonry dwellings that range in age from 56 to 60 years old. The comparable dwellings range in size from 1440 to 1984 square feet of living area. All have central air conditioning, and three have fireplaces. One has a partial basement, and two have full basements, one of which is finished. The appellant did not indicate the size of any garages the comparables may have. The comparables have improvement assessments ranging from \$13.30 to \$17.17 per square foot of living area. The subject's improvement assessment is \$19.62 per square foot of living area.

Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that are 56 or 57 years old. The dwellings range in size from 1556 to 1708 square feet of living area. Features include full basements, three of which are finished, one or two fireplaces and one-car or two-car garages. These properties have improvement assessments ranging from \$19.47 to \$21.49 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The Board finds the comparables submitted by the parties were similar to the subject in most property characteristics, but the appellant's comparables #3 and #4 and the board of review's comparables all were superior to the subject in one or more features. The comparables had improvement assessments that ranged from \$13.30 to \$21.49 per square foot of living area. The subject's improvement assessment of \$19.62 per square foot of living area is within the range established by the comparables, but it is higher than the \$19.47 and \$19.48 per square foot improvement assessments of the board of review's comparables #2 and #3 that enjoy superior features. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
