

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sullivan  
DOCKET NO.: 07-20138.001-R-1  
PARCEL NO.: 28-31-211-024-0000

The parties of record before the Property Tax Appeal Board are Sullivan, the appellant, by attorney Rusty Payton of the Law Offices of Rusty Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 5,853**  
**IMPR.: \$ 19,747**  
**TOTAL: \$ 25,600**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a one and one-half-story dwelling of masonry construction containing 2205 square feet of living area. The dwelling is 16 years old. Features of the home include a full, unfinished basement, central air conditioning, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story or one and one-half-story frame, masonry or frame and masonry dwellings that range in age from 36 to 65 years old. The comparable dwellings range in size from 1855 to 2376 square feet of living area. Two have full, unfinished basements, two have central air conditioning, and three have fireplaces. The appellant did not indicate the size of any garages the comparables may have. The comparables have improvement assessments ranging from \$5.78 to \$6.95 per square foot of living area. The subject's improvement assessment is \$8.96 per square foot of living area. Based on

this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story or one and one-half-story masonry or frame and masonry dwellings that range in age from six to 49 years old. The dwellings range in size from 1440 to 3197 square feet of living area. Features include central air conditioning and one-car to three-car garages. Three have full or partial basements, two of which are finished. Three have one or two fireplaces. These properties have improvement assessments ranging from \$8.75 to \$12.67 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds it should give little weight to the comparables submitted by the parties. The appellant's comparables were of a different design and/or different exterior construction than the subject and were much older than the subject. The board of review's comparables also were of a different design and/or exterior construction than the subject. The board of review's comparables also varied significantly from the subject in age and/or size. The Board notes that the comparables offered by the parties had improvement assessments that ranged from \$5.78 to \$12.67 per square foot of living area. The subject's improvement assessment of \$8.96 per square foot of living area is within the range established by the comparables, but because the comparables are so different from the subject the Board doesn't draw any conclusions from that fact. After considering

adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the evidence is insufficient to support a reduction in the subject's assessment.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
