

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bruce Rodger
DOCKET NO.: 07-20139.001-R-1
PARCEL NO.: 28-30-305-008-0000

The parties of record before the Property Tax Appeal Board are Bruce Rodger, the appellant, by attorney Rusty Payton of the Law Offices of Rusty Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 3,200
IMPR.: \$ 16,240
TOTAL: \$ 19,440

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a multi-level dwelling of masonry construction containing 1235 square feet of living area. The dwelling is 27 years old. Features of the home include a partial, finished basement and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as multi-level frame, masonry or frame and masonry dwellings that range in age from 34 to 54 years old. The comparable dwellings range in size from 1216 to 1480 square feet of living area. Features include partial basements. Three have central air conditioning, and one has a fireplace. The appellant did not indicate the size of any garages the comparables may have. The comparables have improvement assessments ranging from \$8.02 to \$8.22 per square foot of living area. The subject's improvement assessment is

\$13.15 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of multi-level masonry dwellings that range in age from 27 to 47 years old. The dwellings range in size from 1216 to 1331 square feet of living area. Features include partial, finished basements. Three have central air conditioning, three have one and one-half-car to two and one-half-car garages, and two have fireplaces. These properties have improvement assessments ranging from \$13.16 to \$15.13 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #1, #2 and #4 should be given reduced weight because they differed in exterior construction from the subject. The remaining five comparables were generally similar to the subject and had improvement assessments that ranged from \$8.15 to \$15.13 per square foot of living area. The subject's improvement assessment of \$13.15 per square foot of living area is within the range established by those comparables and is lower than the \$13.40 per square foot assessment of the board of review's comparable #4, which is most similar to the subject overall. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
