

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ricardo Aguirre
DOCKET NO.: 07-20178.001-R-1
PARCEL NO.: 16-29-204-017-0000

The parties of record before the Property Tax Appeal Board are Ricardo Aguirre, the appellant, by attorney Mary T. Nicolau, of Smith/Nicolau P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,858
IMPR.: \$19,368
TOTAL: \$24,226

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story multi-family dwelling of masonry construction containing 2,496 square feet of building area. The dwelling is 92 years old. Features of the building include a partial, unfinished basement and a 1½-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as 2-story masonry multi-family dwellings that range in age from 52 to 92 years old. The comparable dwellings range in size from 2,698 to 3,250 square feet of building area. All comparables feature partial, unfinished basements. Three comparables have 1½-car garages. The comparables have improvement assessments ranging from \$6.98 to \$7.76 per square foot of building area. The subject's improvement assessment is \$7.76 per square foot of building area¹. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

¹ The appellant incorrectly used \$24,743 as the board of review's improvement assessment instead of \$19,368, resulting in an erroneous improvement assessment of \$9.91 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of 2-story masonry multi-family dwellings that range in age from 89 to 98 years old. The dwellings range in size from 2,464 to 2,698 square feet of building area. All comparables feature partial, unfinished basements. Two have central air conditioning and three have 1½ or 2½-car garages. These properties have improvement assessments ranging from \$7.76 to \$8.87 per square foot of building area. The board of review's comparable #2 was the same property as appellant's comparable #4. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Appellant's comparables #1, #2 and #3 were much larger and/or much newer than the subject. Therefore, these comparables received less weight in the Board's analysis. The Board finds comparable #4 submitted by the appellant and comparables #2 and #4 submitted by the board of review were most similar to the subject in style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$7.76 to \$8.87 per square foot of living area. The subject's improvement assessment of \$7.76 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
