

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Guy Hurka
DOCKET NO.: 07-20230.001-R-1
PARCEL NO.: 15-01-212-004-0000

The parties of record before the Property Tax Appeal Board are Guy Hurka, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 11,840
IMPR.: \$ 48,913
TOTAL: \$ 60,753

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 2458 square feet of living area. The dwelling is 53 years old. Features of the home include a full, finished basement, central air conditioning and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as two-story masonry or frame and masonry dwellings that range in age from 46 to 54 years old. The comparable dwellings range in size from 2235 to 2886 square feet of living area. Features include full basements, two of which are finished, and fireplaces. Two have central air conditioning. The appellant did not include the size of any garages the comparables may have. The comparables have improvement assessments ranging from \$14.77 to \$17.19 per

square foot of living area. The subject's improvement assessment is \$19.90 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from 53 to 59 years old. The dwellings range in size from 2449 to 2682 square feet of living area. Features include full or partial basements, three of which are finished, central air conditioning, one or two fireplaces and one-car to two-car garages. One is on the same block as the subject. These properties have improvement assessments ranging from \$20.13 to \$22.78 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparable #2 should be given reduced weight in the Board's analysis because it is of a different exterior construction than the subject. The Board finds the remaining seven comparables submitted by the parties were similar to the subject in most property characteristics. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$14.77 to \$22.78 per square foot of living area. The subject's improvement assessment of \$19.90 per square foot of living area is within the range established by the most similar comparables and is lower than the \$20.81 per square foot assessment of the board of review's comparable #1 located on the same block as the

subject. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
