

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dallas Hutsler
DOCKET NO.: 07-20233.001-R-1
PARCEL NO.: 15-01-103-027-0000

The parties of record before the Property Tax Appeal Board are Dallas Hutsler, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 10,331
IMPR.: \$ 56,307
TOTAL: \$ 66,638

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one and one-half-story dwelling of frame and masonry construction containing 2439 square feet of living area. The dwelling is 64 years old. Features of the home include central air conditioning, a fireplace and a one-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story or one and one-half-story masonry or frame and masonry dwellings that range in age from 40 to 69 years old. The comparable dwellings range in size from 2444 to 3010 square feet of living area. Three have central air conditioning and fireplaces. Two have partial basements, and one has a full, unfinished basement. The appellant did not include the size of any garages the comparables may have. The comparables have improvement assessments ranging from \$18.78 to \$20.69 per square foot of living area. The subject's improvement assessment is \$23.09 per

square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of one and one-half-story frame and masonry dwellings that range in age from 47 to 56 years old. The dwellings range in size from 2458 to 4263 square feet of living area. Features include one to three fireplaces and one-car to two and one-half-car garages. Two have full, finished basements, and one has a partial, unfinished basement. These properties have improvement assessments ranging from \$23.51 to \$25.25 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #1, #2 and #3 should be given reduced weight in the Board's analysis because they were of a different exterior construction than the subject. Also, the first two were of a different design than the subject, and the third was significantly larger. The Board finds the board of review's comparable #3 should be given reduced weight in the Board's analysis because it was much larger than the subject. The Board finds the remaining three comparables submitted by the parties were most similar to the subject, but they had basements not enjoyed by the subject. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$20.69 to \$24.53 per square foot of living area. The subject's improvement

assessment of \$23.09 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
