

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Lennon
DOCKET NO.: 07-20234.001-R-1
PARCEL NO.: 15-12-108-007-0000

The parties of record before the Property Tax Appeal Board are John Lennon, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 7,926
IMPR.: \$ 31,859
TOTAL: \$ 39,785

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of frame construction containing 1102 square feet of living area. The dwelling is 84 years old. Features of the home include a full, unfinished basement, central air conditioning, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristic information on only four comparable properties. They were described as one-story frame or stucco dwellings that range in age from 77 to 93 years old. The comparable dwellings range in size from 1080 to 1364 square feet of living area. Features include full basements, one of which is finished, and fireplaces. All lack central air conditioning. The appellant did not include the size of any garages the comparables may have. The comparables have improvement assessments ranging from \$23.42 to \$24.36 per square

foot of living area. The subject's improvement assessment is \$28.91 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on two comparable properties consisting of one-story frame or stucco dwellings that are 82 and 95 years old. The dwellings have 1040 and 1100 square feet of living area. Features include full, unfinished basements and one-car or two-car garages. One has central air conditioning and a fireplace. One is located on the same block as the subject. These properties have improvement assessments of \$32.65 and \$33.95 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #3 and #4 and the board of review's comparable #2 should be given reduced weight in the Board's analysis because they are of a different exterior construction than the subject. The Board finds the remaining three comparables submitted by the parties were generally similar to the subject, but all lacked central air conditioning. These comparables had improvement assessments that ranged from \$23.42 to \$33.95 per square foot of living area. The subject's improvement assessment of \$28.91 per square foot of living area is within the range established by the most similar comparables and is lower than the \$33.95 per square foot assessment of the board of review's comparable #1, which has fewer amenities than the subject and is located on the same block. After considering adjustments and the differences in both parties' comparables

when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
