

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Christoph Leonhard
DOCKET NO.: 07-20239.001-R-1
PARCEL NO.: 15-12-110-046-0000

The parties of record before the Property Tax Appeal Board are Christoph Leonhard, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 10,100
IMPR.: \$ 36,654
TOTAL: \$ 46,754

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of frame and masonry construction containing 1640 square feet of living area. The dwelling is 46 years old. Features of the home include a full, finished basement, central air conditioning, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on six properties but presented sufficiently detailed property characteristics information on only four comparable properties. They were described as one-story or one and one-half-story frame, stucco or frame and masonry dwellings that range in age from 45 to 103 years old. The comparable dwellings range in size from 1460 to 1692 square feet of living area. One has a partial basement, and three have full, unfinished basements. All have central air conditioning, and two have fireplaces. The appellant did not include the size of any garages the comparables may have. The comparables have

improvement assessments ranging from \$15.71 to \$19.20 per square foot of living area. The subject's improvement assessment is \$22.35 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story or one and one-half-story masonry or frame and masonry dwellings that range in age from 53 to 88 years old. The dwellings range in size from 1501 to 1771 square feet of living area. One has a partial basement, and three have full basements, one of which is finished. One has central air conditioning, two have fireplaces, and two have one-car or one and one-half-car garages. One is located on the same block as the subject. These properties have improvement assessments ranging from \$22.35 to \$22.85 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #2, #3 and #4 and the board of review's comparables #2, #3 and #4 should be given reduced weight in the Board's analysis because they are much older than the subject and they are of a different design and/or exterior construction than the subject. The Board finds the remaining two comparables submitted by the parties were most similar to the subject. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of \$15.71 and \$22.85 per square foot of living area. The

subject's improvement assessment of \$22.35 per square foot of living area is between the per square foot assessments of those two comparables and is lower than the \$22.85 per square foot assessment of the board of review's comparable #1, which is located on the same block as the subject and has inferior features compared to the subject. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
