

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kimberly Polley
DOCKET NO.: 07-20248.001-R-1
PARCEL NO.: 15-01-110-002-0000

The parties of record before the Property Tax Appeal Board are Kimberly Polley, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 23,680
IMPR.: \$ 81,740
TOTAL: \$ 105,420

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 3198 square feet of living area. The dwelling is 75 years old. Features of the home include a full, unfinished basement, central air conditioning, two fireplaces and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as two-story frame, masonry or frame and masonry dwellings that range in age from 67 to 76 years old. The comparable dwellings range in size from 2902 to 3858 square feet of living area. Three have full, finished basements, and one has a partial basement. All have fireplaces, and two have central air conditioning. The appellant did not include the size of any garages the comparables may have. The comparables have improvement

assessments ranging from \$17.18 to \$21.30 per square foot of living area. The subject's improvement assessment is \$25.56 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two-story frame or masonry dwellings that range in age from 65 to 88 years old. The dwellings range in size from 2697 to 3118 square feet of living area. Features include full, finished basements, two to four fireplaces and two-car or two and one-half-car garages. Two have central air conditioning. These properties have improvement assessments ranging from \$27.63 to \$34.56 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #3 and #4 and the board of review's comparable #2 should be given reduced weight in the Board's analysis because they are of different exterior construction than the subject. The Board also finds it should give less weight to the appellant's comparable #1 because it is much larger than the subject and to the board of review's comparable #4 because it is of deluxe condition. The Board finds the remaining two comparables submitted by the parties were most similar to the subject. However, they both have finished basements not enjoyed by the subject and lack central air conditioning the subject possesses. These comparables had improvement assessments of \$20.92 and \$27.63 per square foot of living area. The subject's improvement assessment of \$25.56 per

square foot of living area is between the assessments of these two most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
