

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Stompor  
DOCKET NO.: 07-20257.001-R-1  
PARCEL NO.: 15-01-106-029-0000

The parties of record before the Property Tax Appeal Board are John Stompor, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 11,945  
**IMPR.:** \$ 46,998  
**TOTAL:** \$ 58,943

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a one and one-half-story dwelling of frame and masonry construction containing 2305 square feet of living area. The dwelling is 52 years old. Features of the home include a partial, finished basement, central air conditioning, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story or one and one-half-story stucco or masonry dwellings that range in age from 44 to 69 years old. The comparable dwellings range in size from 2330 to 2748 square feet of living area. Features include partial basements and fireplaces. Three have central air conditioning. The appellant did not include the size of any garages the comparables may have. The comparables have improvement assessments ranging from \$16.97 to \$18.32 per square foot of living area. The subject's improvement assessment is \$20.39 per square foot of living area. Based on this evidence,

the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story and one and one-half-story masonry or frame and masonry dwellings that range in age from 44 to 55 years old. The dwellings range in size from 2138 to 2643 square feet of living area. Features include central air conditioning, one or two fireplaces and two-car garages. Three have full basements, one of which is finished, and one has a partial, unfinished basement. These properties have improvement assessments ranging from \$21.25 to \$22.51 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #3 and #4 and the board of review's comparables #2, #3 and #4 should be given reduced weight in the Board's analysis because they differed from the subject in both design and exterior construction. The appellant's comparables #1 and #2 also should receive less weight because they differed from the subject in exterior construction. The Board finds only the board of review's comparable #1 was truly similar to the subject. It had an improvement assessment of \$22.51 per square foot of living area. The subject's improvement assessment of \$20.39 per square foot of living area is lower than the most similar comparable. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the

Docket No: 07-20257.001-R-1

subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
