

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Vincent Bray  
DOCKET NO.: 07-20285.001-R-1  
PARCEL NO.: 16-18-135-004-0000

The parties of record before the Property Tax Appeal Board are Vincent Bray, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$6,500  
**IMPR.:** \$29,025  
**TOTAL:** \$35,525

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a one and one-half-story dwelling of frame construction containing 1075 square feet of living area. The dwelling is 98 years old. Features of the home include a full, unfinished basement and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as one-story or one and one-half-story frame, masonry or stucco dwellings that range in age from 52 to 94 years old. The comparable dwellings range in size from 1032 to 1255 square feet of living area. Three have full, unfinished basements, and one has a partial basement. One has central air conditioning. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$15.28 to \$20.17 per square foot of living area. The subject's

improvement assessment is \$22.95 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one and one-half-story frame dwellings that range in age from 87 to 102 years old. The dwellings range in size from 1020 to 1218 square feet of living area. Features include full, unfinished basements and one-car to two-car garages. One has a fireplace. These properties have improvement assessments ranging from \$25.79 to \$28.28 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The Board finds the appellant's comparables should be given reduced weight in the Board's analysis because they differed from the subject in design or exterior construction or both. The Board finds the comparables submitted by the board of review were similar to the subject in most property characteristics. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$25.79 to \$28.28 per square foot of living area. The subject's improvement assessment of \$28.48 per square foot of living area is higher than the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not

equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
