

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kenneth Callero
DOCKET NO.: 07-20302.001-R-1
PARCEL NO.: 16-18-315-035-0000

The parties of record before the Property Tax Appeal Board are Kenneth Callero, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 5,216
IMPR.: \$ 40,609
TOTAL: \$ 45,825

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 2596 square feet of living area. The dwelling is 95 years old. Features of the home include a partial, finished basement and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as two-story frame or stucco dwellings that range in age from 83 to 102 years old. The comparable dwellings range in size from 1586 to 1960 square feet of living area. Features include full basements, one of which is finished. One has central air conditioning. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$12.63 to \$15.14 per square foot of living area. The appellant contended the subject's improvement assessment is

\$17.93 per square foot of living area based upon 2000 square feet of living area and an improvement assessment of \$35,852. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story stucco, masonry or frame and masonry dwellings that range in age from 85 to 98 years old. The dwellings range in size from 2298 to 2351 square feet of living area. Features include full basements, two of which are finished, and two-car or two and one-half-car garages. These properties have improvement assessments ranging from \$15.42 to \$16.70 per square foot of living area. The board of review indicated the subject's improvement assessment is \$15.64 per square foot based upon 2596 square feet of living area and an improvement assessment of \$40,609. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties disagreed about the size of the living area and the current assessment of the subject. The appellant contended the subject has 2000 square feet of living area. The board of review indicated it has 2596 square feet of living area. The Board finds the subject has 2596 square feet of living area based on the data in the property characteristic printout sheet provided in the board of review's filing.

The parties also disagreed about the subject's current improvement assessment, total assessment and improvement assessment per square foot. Based on the Cook County board of

review decision dated 02/15/2008 submitted with the appellant's filing and the property characteristic printout sheet submitted with the board of review's filing, the Board finds that the improvement assessment is \$40,609, the total assessment is \$45,825, and the improvement assessment is \$15.64 per square foot of living area.

The Board finds the appellant's comparables and the board of review's comparables #3 and #4 should be given reduced weight in the Board's analysis because they are of different exterior construction than the subject. The appellant's comparables also were much smaller than the subject. The Board finds the remaining two comparables submitted by the board of review were most similar to the subject overall. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of \$15.42 and \$16.40 per square foot of living area. The subject's improvement assessment of \$15.64 per square foot of living area is between those of the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
