

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Leavy
DOCKET NO.: 07-20304.001-R-1
PARCEL NO.: 16-07-223-017-0000

The parties of record before the Property Tax Appeal Board are John Leavy, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,256
IMPR.: \$ 66,961
TOTAL: \$ 75,217

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction containing 3132 square feet of living area. The dwelling is 117 years old. Features of the home include a full, unfinished basement and a two and one-half-car garage. It is in deluxe condition.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as two-story frame or stucco dwellings that range in age from 97 to 123 years old. The comparable dwellings range in size from 2798 to 3172 square feet of living area. Features include full, unfinished basements. One has central air conditioning, and two have fireplaces. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$15.15 to \$18.41 per square foot of

living area. The subject's improvement assessment is \$21.38 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame dwellings that range in age from 97 to 127 years old. The dwellings range in size from 2024 to 3213 square feet of living area. Features include full, unfinished basements. Three have one or two fireplaces and one and one-half-car or two-car garages. Two are located on the same street as the subject. These properties have improvement assessments ranging from \$21.83 to \$31.21 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #1, #3 and #4 and the board of review's comparable #4 should be given reduced weight in the Board's analysis because the first three were of a different exterior construction and the last was much smaller than the subject. The Board finds the remaining comparables submitted by the parties were most similar to the subject. However, all had fireplaces not enjoyed by the subject. On the other hand, the subject was identified by the board of review as being in deluxe condition while all the comparables were in average condition. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$17.26 to \$22.05 per square foot of living area.

The subject's improvement assessment of \$21.38 per square foot of living area is within the range established by the most similar comparables and is lower than the \$21.84 per square foot assessment of the board of review's comparable #1 located on the same block. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
