

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

/APPELLANT: Timothy Hunnewell  
DOCKET NO.: 07-20312.001-R-1  
PARCEL NO.: 16-07-110-009-0000

The parties of record before the Property Tax Appeal Board are Timothy Hunnewell, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 6,954  
**IMPR.:** \$ 39,066  
**TOTAL:** \$ 46,020

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of frame construction containing 2148 square feet of living area. The dwelling is 137 years old. Features of the home include a full, unfinished basement, central air conditioning and a one-car garage. It has three full bathrooms and one half bathroom.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story stucco, frame or frame and masonry dwellings that range in age from 87 to 135 years old. The comparable dwellings range in size from 1802 to 2048 square feet of living area. Features include full, unfinished basements. One has central air conditioning, and three have fireplaces. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$11.42 to \$15.95 per square foot of living area. The subject's improvement assessment is \$18.19 per square foot of living area. Based on this evidence,

the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame dwellings that range in age from 97 to 122 years old. The dwellings range in size from 1534 to 2112 square feet of living area. Features include full, unfinished basements. Three have central air conditioning, two have fireplaces, and three have one-car to two and one-half car garages. These properties have improvement assessments ranging from \$18.18 to \$20.74 per square foot of living area. The board of review filing also indicated the subject sold in March of 2006 for \$576,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #1, #2 and #3 and the board of review's comparable #3 should be given reduced weight in the Board's analysis because the first three were of a different exterior construction than the subject and the last one was much smaller than the subject. The Board finds the remaining four comparables submitted by the parties were generally similar to the subject although the subject had at least one and one-half bathrooms more than any of the comparables. These comparables had improvement assessments that ranged from \$15.95 to \$20.74 per square foot of living area. The subject's improvement assessment of \$18.19 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the

subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted. The Board also notes the 2006 selling price of the subject indicates it is not over assessed.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
