

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Howard Klein  
DOCKET NO.: 07-20329.001-R-1  
PARCEL NO.: 16-06-227-014-0000

The parties of record before the Property Tax Appeal Board are Howard Klein, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 9,672  
**IMPR.:** \$ 41,641  
**TOTAL:** \$ 51,313

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of masonry construction containing 2052 square feet of living area. The dwelling is 80 years old. Features of the home include a full, unfinished basement, central air conditioning, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as two-story frame or masonry dwellings that range in age from 63 to 82 years old. The comparable dwellings range in size from 1790 to 2147 square feet of living area. Features include full basements, one of which is finished. Two have central air conditioning and fireplaces. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$13.88 to \$16.42 per square foot of

living area. The subject's improvement assessment is \$20.29 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from 65 to 78 years old. The dwellings range in size from 1841 to 2118 square feet of living area. Features include full, finished basements, one or two fireplaces and two-car garages. Three have central air conditioning. These properties have improvement assessments ranging from \$21.10 to \$23.65 per square foot of living area. The board of review's evidence indicates the subject sold in May of 2006 for \$605,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparable #3 should be given reduced weight in the Board's analysis because it was of a different exterior construction than the subject. The Board finds the remaining seven comparables submitted by the parties were generally similar to the subject. Two of the appellant's comparables lacked central air conditioning and fireplaces and all of the board of review's had finished basements. The appellant's filing did not indicate whether the appellant's comparables had garages similar to the subject. These seven comparables had improvement assessments that ranged from \$13.88 to \$23.65 per square foot of living area. The subject's improvement assessment of \$20.29 per square foot of living area is within the range established by these comparables. After

considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted. Also, the May 2006 sale price of the subject does not indicate that the subject is over assessed.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
