

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Province
DOCKET NO.: 07-20345.001-R-1
PARCEL NO.: 16-18-314-021-0000

The parties of record before the Property Tax Appeal Board are Robert Province, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 7,397
IMPR.: \$ 24,863
TOTAL: \$ 32,260

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of frame construction containing 1250 square feet of living area. The dwelling is 88 years old. Features of the home include a full, finished basement and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as one-story or one and one-half-story frame dwellings that range in age from 92 to 105 years old. The comparable dwellings range in size from 1237 to 1374 square feet of living area. Three have full, unfinished basements, and one has a partial basement. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$12.45 to \$13.21 per square foot of living area. The subject's improvement assessment is \$19.89 per square foot of living area.

Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of one and one-half-story or two-story stucco or frame dwellings that range in age from 87 to 117 years old. The dwellings range in size from 1147 to 1279 square feet of living area. Features include full basements, one of which is finished. Two have two-car garages. These properties have improvement assessments ranging from \$22.58 to \$24.59 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #1, #2 and #3 and the all of the board of review's comparables should be given reduced weight in the Board's analysis because they are of different design than the subject. The only other comparable is the appellant's comparable #4, which the appellant's grid sheet indicates is a one-story dwelling similar to the subject. However, the photo of comparable #4 submitted by the appellant appears to show a one and one-half story dwelling. The Board finds that one comparable, which appears in the photo evidence to be of a different design than the subject, which lacks a finished basement similar to the subject and for which the appellant did not indicate whether it had a garage similar to the subject, does not demonstrate with clear and convincing evidence that the subject improvements were inequitably assessed. The Board finds a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
