

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chris Mijal
DOCKET NO.: 07-20475.001-R-1
PARCEL NO.: 16-06-417-016-0000

The parties of record before the Property Tax Appeal Board are Chris Mijal, the appellant, by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,600
IMPR: \$ 39,360
TOTAL: \$ 47,960

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 97-year old, two-story, frame, single-family dwelling. It contains 1,968 square feet of living area and is situated on an 8,600 square foot lot. Features include one and one half-baths, four bedrooms, a full, unfinished basement, and a detached two-car garage.

The appellant, via counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted descriptive and assessment data for three suggested comparables located on the same street as the subject. The properties are improved with a two-story, frame or stucco, single-family dwelling, all of which are located on the subject's block. They range: in age from 87 to 97 years; in size from 1,910 to 2,180 square feet of living area; and in improvement assessment from \$16.27 to \$20.44 per square foot of living area. The subject's improvement assessment is \$23.54 per square foot of living area. Amenities for the suggested comparable properties include one or two full baths, one fireplace, a full or partial unfinished basement, and a

garage for two properties. Based upon this analysis, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review-Notes on Appeal" wherein the subject's improvement assessment of \$46,317 was disclosed. In support of the subject's assessment, the board of review submitted descriptive and assessment data relating to three suggested comparables located within the subject's neighborhood. The properties are improved with a two-story, frame, single-family dwelling. They range: in age from 112 to 117 years; in size from 1,896 to 2,060 square feet of living area; and in improvement assessment from \$24.44 to \$27.80 per square foot of living area. Amenities for the properties include two or two and one half-baths, three or four bedrooms, a full, unfinished basement, two fireplaces for two properties, and a two-car garage for one property. Based on this evidence, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The parties submitted a total of six comparable properties for the Board's consideration. The Board finds that comparables #1 through #3 submitted by the appellant are most similar to the subject in age, location, improvement size and amenities. These comparables are two-story, frame or stucco, single-family dwellings with 1,910 to 2,180 square feet of living area. They range in age from 87 to 97 years and are located on the same street as the subject. In analysis, the Board accorded the most weight to these comparables. These comparables ranged in improvement assessment from \$16.27 to \$20.44 per square foot of living area. The subject's improvement assessment at \$23.54 per square foot is above the range established by these comparables.

After considering adjustments based on the similarities and differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
