

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mohammed Iftakar
DOCKET NO.: 07-20619.001-R-1
PARCEL NO.: 10-36-307-041-0000

The parties of record before the Property Tax Appeal Board are Mohammed Iftakar, the appellant(s), by attorney Stephanie Park, of Park & Longstreet, P.C. in Rolling Meadows; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,462
IMPR.: \$31,920
TOTAL: \$41,382

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 4,920 square foot parcel of land improved with a 48-year old, one-story, masonry, single-family dwelling containing 1,441 square feet of living area, two and one-half baths, and a full, unfinished basement. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of 12 properties suggested as comparable and located within the subject's neighborhood. The properties are described as one or one and one-half story, masonry or frame and masonry, single-family dwellings with between one and two and one-half baths, air conditioning for nine properties, one fireplace for one property, and, for all the properties, a full basement with one finished. The properties range: in age from 32 to 80 years; in size from 1,316 to 1,606 square feet of living area; and in improvement assessments from \$17.94 to \$19.79 per square foot of living area.

Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$31,920 or \$22.15 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on three properties suggested as comparable and located within the subject's neighborhood. The properties are described as one-story, masonry, single-family dwellings with one and one-half or two baths, a full basement with one finished, and, for two properties, air conditioning. The properties range: in age from 52 to 54 years; in size from 1,316 to 1,451 square feet of living area; and in improvement assessments from \$22.59 to \$24.19 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

At hearing, the appellant's attorney argued that the subject was over assessed based on the most comparable properties submitted by the appellant.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of 15 properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #1, #3, #6, #9, and #10 and the board of review's comparables most similar to the subject in size, design, construction and age. The properties are described as one-story, masonry, single-family dwellings. The properties range: in age from 32 to 55 years; in size from 1,316 to 1,573 square feet of living area; and in improvement assessments from \$17.94 to \$24.19 per square foot of living area. In comparison, the subject's improvement assessment of \$22.15 per square foot of living area is within the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
