

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Darush Mabadi
DOCKET NO.: 07-20653.001-R-1
PARCEL NO.: 11-19-316-008-0000

The parties of record before the Property Tax Appeal Board are Darush Mabadi, the appellant, by attorney Mitchell L. Klein, of Schiller Klein PC of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 16,646
IMPR.: \$ 70,673
TOTAL: \$ 87,319

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 5,774 square feet of living area. The dwelling is 80 years old. Features of the home include a full, unfinished basement and a two and one-half car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story stucco or masonry dwellings that range in age from 45 to 101 years old. The comparable dwellings range in size from 4,029 to 4,870 square feet of living area. Each has a full, unfinished basement, one has central air conditioning, one has two fireplaces and two have a garage. The comparables have improvement assessments ranging from \$7.44 to \$12.00 per square foot of living area. The subject's improvement assessment is \$12.24 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story

masonry dwellings that are between 79 and 98 years old. The dwellings range in size from 2,622 to 5,520 square feet of living area. The comparables have full basements, one of which is finished, one has central air conditioning, three have two fireplaces and each has a garage. These properties have improvement assessments ranging from \$13.25 to \$16.59 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, the appellant noted differences between the comparables submitted by the board of review and the subject property with respect to size, air conditioning, garage size, other improvements, fireplaces and basement finish. It was also noted the board of review reduced its assessment on comparable three in 2008.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The comparables submitted by both parties were similar to the subject in design. The appellant's comparables one and two and the board of review's comparables two through four were substantially smaller than the subject and received reduced weight. The remaining comparables, appellant's #3 and the board of review's #1, were similar to the subject in exterior construction, age and size. They were also similar in amenities with some variations. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of \$12.00 and \$13.25 per square foot. The subject's improvement assessment of \$12.24 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
