

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Anayis Kasper
DOCKET NO.: 07-20656.001-R-1
PARCEL NO.: 09-23-406-058-0000

The parties of record before the Property Tax Appeal Board are Anayis Kasper, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 12,495
IMPR.: \$ 27,332
TOTAL: \$ 39,827

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 42-year-old, one-story, single-family dwelling of masonry construction containing 1,404 square feet of living area and located in Maine Township, Cook County. Features of the residence include one and one-half bathroom, a full-unfinished basement, air-conditioning and a two-car attached garage.

The appellant appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of one-story, single-family dwellings of masonry or frame construction located within three blocks of the subject. The improvements range in size from 1,353 to 1,787 square feet of living area and range in age from 48 to 57 years. The comparables contain one or one and one-half bathrooms. Two comparables have air-conditioning and two comparables contain a one-car or two-car garage. The improvement assessments range from \$17.71 to \$18.62 per square foot of living area.

At hearing, the appellant argued that the appellant's comparables are similar to the subject and should be considered as such by the Property Tax Appeal Board. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$39,827. The subject's improvement assessment is \$27,332 or \$19.47 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with one-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,381 to 1,512 square feet of living area and range in age from 34 to 43 years. The comparables contain one and one-half bathroom, a full-finished or unfinished basement and a two-car garage. Three comparables have air-conditioning. The improvement assessments range from \$20.96 to \$23.71 per square foot of living area.

At hearing, the board's representative stated that the board of review's comparables are similar to the subject in size, design, age, amenities and location and indicated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, exterior construction, amenities, age and/or location and have improvement assessments ranging from \$20.96 to \$23.71 per square foot of living area. The subject's per square foot improvement assessment of \$19.47 falls below the range established by these properties. The Board finds the appellant's comparables one and three are much larger in size of living area as compared to the subject. The Board further finds the appellant's comparable two is of frame construction and inferior to the subject. After considering adjustments and the differences in both parties'

suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
