

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Theodore Parris  
DOCKET NO.: 07-20690.001-R-1  
PARCEL NO.: 05-33-202-010-0000

The parties of record before the Property Tax Appeal Board are Theodore Parris, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 18,900  
**IMPR.:** \$ 58,409  
**TOTAL:** \$ 77,309

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 100-year-old, two-story style single-family dwelling of stucco construction containing 2,328 square feet of living area. Amenities include two and one-half baths, a full unfinished basement, central air conditioning, a fireplace, and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing six suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of two-story style single-family dwellings of frame or masonry construction ranging in age from 85 to 132 years old. The comparable dwellings feature from one and one-half to two and one-half baths; and partial or full basements; two are central air conditioned; four have fireplaces; and five have garages. The

comparables range in size from 2,325 to 2,492 square feet of living area and have improvement assessments ranging from \$2307 to \$24.71 per square foot of living area. A copy of the subject's 2007 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$58,409, or \$25.09 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparables consist of two-story style single-family dwellings of stucco construction ranging in age from 81 to 99 years old. The comparables contain from one and one-half baths to two and one-half baths, full unfinished basements, fireplaces, and have garages; and three are centrally air conditioned. These properties range in size from 2,453 to 2,540 square feet of living area and have improvement assessments ranging from \$26.61 to \$27.95 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted ten properties as comparable to the subject. The Board finds that these properties are similar in size, age, and location when compared to the subject. Further the Board finds that overall all of the improvement comparables bear similarities to the subject in amenities. These properties have improvement assessments ranging from \$23.07 to \$27.60 per square foot of living area. The subject's per square foot improvement assessment of \$25.09 falls within the range established by these properties. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.
