

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Erick Soderberg  
DOCKET NO.: 07-20774.001-R-1  
PARCEL NO.: 16-06-106-010-0000

The parties of record before the Property Tax Appeal Board are Erick Soderberg, the appellant(s), by attorney Adam E. Bossov, of Law Offices of Adam E. Bossov, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$10,432  
**IMPR.:** \$37,440  
**TOTAL:** \$47,872

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 8,150 square foot parcel of land improved with a 58-year old, two-story, masonry, single-family dwelling containing 1,560 square feet of living area with one and one-half baths, a full unfinished basement, and one fireplace. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of five properties suggested as comparable and located within one mile of the subject property. The properties are described as two-story, masonry and frame or masonry, single-family dwellings with between one and two and one-half baths, one fireplace for three properties, and a full unfinished basement for three of the properties. The properties range: in age from 56 to 62 years; in size from 1,772 to 1,996 square feet of living area; and in improvement assessments from \$21.90 to \$23.10 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$39,468 or \$25.30 per square foot of living area was disclosed. In

support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable with two of the properties located within one-quarter mile and on the same block as the subject. The properties are described as two-story, masonry, single-family dwellings with between one and one-half and two and one-half baths, one or two fireplaces for three of the properties, and a full basement. The properties range: in age from 57 to 59 years; in size from 1,412 to 1,711 square feet of living area; and in improvement assessments from \$21.67 to \$24.73 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of eight properties suggested as comparable to the subject. The PTAB finds the board of review's comparables #1, #2, and #4 most similar to the subject in size, design, construction, and location. The properties are described as two-story, masonry, single-family dwellings with between one and one-half and two and one-half baths, one or two fireplace for two of the properties, and a full unfinished basement for two of the properties. The properties range: in age from 57 to 59 years; in size from 1,412 to 1,612 square feet of living area; and in improvement assessments from \$21.67 to \$24.73 per square foot of living area. In comparison, the subject's improvement assessment of \$25.30 per square foot of living area is above the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported and a reduction in the improvement assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
