

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Rick Lange
DOCKET NO.: 07-20801.001-R-1
PARCEL NO.: 08-24-404-031-0000

The parties of record before the Property Tax Appeal Board are Rick Lange, the appellant, by attorney Joseph G. Kusper, of Storino Ramello & Durkin in Rosemont; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 10,148
IMPR.: \$ 26,579
TOTAL: \$ 36,727

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a multi-level, single-family dwelling of frame and masonry construction containing 1,417 square feet of living area. The dwelling is 46 years old. Features of the home include a partial finished basement and a one-car garage. The dwelling is situated on a 11,532 square foot lot located in Elk Grove Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In the support of this claim, the appellant submitted descriptions and assessment information on three suggested comparable properties. The properties are located within several blocks of the subject property. They consist of multi-level, single-family, masonry or masonry and frame dwellings that range in age from 40 to 47 years old. The comparable dwellings range in size from 1,882 to 2,796 square feet of living area. Features include a partial finished or full finished basement. These properties have a one-car or two car garage and one property have central conditioning. The comparables have improvement assessments ranging from \$29,435 to \$42,320 or \$15.13 to \$15.88 per square foot of living area. The subject's improvement assessment is \$26,579 or \$18.76 per square

foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$21,412 or \$15.11 per square foot of living of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$36,727 was disclosed. The subject's improvement assessment is \$26,579 or \$18.76 per square foot of living area. In support of the subject assessments, the board of review presented descriptions and assessment information on four comparable properties. They consist of multi-level, frame and masonry single family dwellings that range in age from 44 to 49 years old. The dwellings range in size from 1,288 to 1,334 square feet of living area. The comparables are located in the same neighborhood code as the subject property. Features include a partial and a one-car or two-car garage. Two properties have central air conditioning. These properties have improvement assessments ranging from \$26,401 to \$27,304 or \$20.22 to \$20.97 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds no reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties submitted a total of seven comparables for the Board's consideration. The Board gave less weight to appellant's comparables due to larger size when compared to the subject. The Board finds comparables submitted by the board of review are most similar to the subject in location, size, age, style, exterior construction and features. These comparables had improvement assessments that ranged from \$26,401 to \$27,304 or \$20.22 to \$20.97 per square foot of living area. The subject's improvement assessment of \$26,579 or \$18.76 per square foot of living area is below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill2d. 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area

are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
