

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Wright  
DOCKET NO.: 07-20881.001-R-1  
PARCEL NO.: 05-20-315-003-0000

The parties of record before the Property Tax Appeal Board are David Wright, the appellant, by attorney Mitchell L. Klein, of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$45,957  
IMPR: \$91,044  
TOTAL: \$137,001**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a 2-story dwelling of masonry construction containing 3,600 square feet of living area. The dwelling is 60 years old. Features of the home include a full, finished basement, central air conditioning and two fireplaces.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as 2-story masonry or frame and masonry dwellings that range in age from 52 to 59 years old. The comparable dwellings range in size from 3,405 to 3,654 square feet of living area. Three comparables feature partial basements, two of which are finished, and one is on a slab foundation. Three have central air conditioning and 1 or 2 fireplaces. Three comparables feature 1 or 2-car garages. The comparables have improvement assessments ranging from \$24.00 to \$25.29 per square foot of living area. The subject's improvement assessment is \$27.90 per square foot of living area<sup>1</sup>. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

---

<sup>1</sup> The appellant's improvement assessment per square foot calculation is \$31.23. The board of review's improvement assessment calculation is \$27.90 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of 2-story masonry dwellings that range in age from 43 to 56 years old. The dwellings range in size from 2,875 to 3,064 square feet of living area. All comparables feature full or partial basements, one of which is finished. All have central air conditioning, 1 or 2 fireplaces and 2-car garages. These properties have improvement assessments ranging from \$26.61 to \$28.88 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal the appellant points out the differences in size between the subject and the board of review's comparables. The appellant also claims the improvement assessment on the board of review's grid analysis is incorrect.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

All three comparables submitted by the board of review were much smaller than the subject and therefore received less weight in the Board's analysis. The Board finds the comparables submitted by the appellant were most similar to the subject in size, style, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$24.00 to \$25.29 per square foot of living area. The subject's improvement assessment of \$27.90 per square foot of living area is above the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
