

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gemma & Gina Pieroni
DOCKET NO.: 07-20927.001-R-1
PARCEL NO.: 16-08-108-011-0000

The parties of record before the Property Tax Appeal Board are Gemma & Gina Pieroni, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,549
IMPR.: \$ 43,451
TOTAL: \$ 52,000

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 8,550 square foot parcel improved with a 92-year-old, two-story, multi-family dwelling of stucco construction containing 3,802 square feet of living area and located in Oak Park Township, Cook County. Features of the residence include three full bathrooms, a full-unfinished basement and a two-car detached garage.

The appellants submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellants submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellants' documents, the four suggested comparables consist of two-story, multi-family dwellings of stucco or masonry construction located on the same street and within two blocks of the subject. The improvements range in size from 3,480 to 4,356 square feet of living area and range in age

from 91 to 105 years old. The comparables contain two or three full bathrooms, a full-unfinished basement and a two-car garage. Two comparables have fireplaces. The improvement assessments range from \$10.10 to \$10.72 per square foot of living area. Based on the evidence submitted, the appellants requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$56,346. The subject's improvement assessment is \$47,797 or \$12.57 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, multi-family dwellings of stucco construction with the same neighborhood code as the subject. Two of the comparables are located on the same street and within two blocks of the subject. The improvements range in size from 2,946 to 3,836 square feet of living area and range in age from 85 to 93 years. The comparables contain two, three or three and one-half bathrooms and a two-car detached garage. Three comparables contain a full-unfinished basement and two comparables have fireplaces. The improvement assessments range from \$12.05 to \$13.13 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have overcome this burden.

The Board finds the appellants' comparables two and three and the board of review's comparable two to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age, exterior construction and location and have improvement assessments ranging from \$10.59 to \$12.05 per square foot of living area. The subject's per square foot improvement assessment of \$12.57 falls above the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot

improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
