

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Cohen
DOCKET NO.: 07-20981.001-R-1
PARCEL NO.: 05-08-321-058-0000

The parties of record before the Property Tax Appeal Board are Michael Cohen, the appellant, by attorney Mitchell L. Klein, of Schiller Klein PC of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 62,702
IMPR.: \$ 125,440
TOTAL: \$ 188,142

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of frame construction containing 3,920 square feet of living area. The dwelling is 48 years old. Features of the home include a partial, unfinished basement, central air conditioning, three fireplaces and a four-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story frame or frame and masonry dwellings that range in age from 46 to 66 years old. The comparable dwellings range in size from 4,064 to 4,442 square feet of living area. Features include partial or full basements, one of which is finished, central air conditioning, fireplaces and garages. The comparables have improvement assessments ranging from \$23.97 to \$28.30 per square foot of living area. The appellant's petition indicates the subject's improvement assessment is \$32.94 per square foot of living area and is based on the present assessment, including full value of the home improvement exemption. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one or one and one-half story frame and masonry, masonry or stucco dwellings that range in age from 38 to 49 years old. The dwellings range in size from 3,830 to 5,553 square feet of living area. Features include full or partial basements, with one having finished area, central air conditioning, fireplaces and garages. These properties have improvement assessments ranging from \$72.00 to \$97.21 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds three of the comparables submitted by the appellant differed from the subject in exterior construction. The one comparable similar to the subject in exterior construction was considerably older and larger than the subject. This comparable also had fewer amenities than the subject property with respect to number of fireplaces and garage size. The board of review's comparables all differed from the subject in exterior construction. Three were substantially larger than the subject and one also differed from the subject in design. Although none of the comparables was sufficiently similar to the subject to provide clear and convincing evidence the subject was inequitably assessed, the Board notes all comparables had improvement assessments ranging from \$23.97 to \$97.21 per square foot. The subject's \$33.94 per square foot improvement assessment is within this range. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
